Safety Precautions

Please be sure to follow the instructions mentioned below
This instruction manual described various ways to ensure safe use of Product.
Please read the text after carefully understanding the contents (display and graphic symbols) and follow the descriptions.

The contents caused by ignoring the "indication" and mishandling are classified as follows.

- ⚠ **WARNING**

It indicates "content that may result in death or serious injury."

- ⚠ **CAUTION**

It indicates "content that may cause injury or damage to property".

- **The types of contents to be protected are explained by dividing them into "graphic symbols".**

It represents "what not to do".

It represents "what must be done".

- ⚠ **WARNING**

Do not disassemble, modify, or repair it.
(Causes of fire, electric shock, or injury)

Do not handle the connection adapter with wet hands.
(Causes of electric shock or fire)

Do not wet the main unit or use it in the bathroom.
(Causes of electric shock or fire)

➢ Do not use the connection adapter in the following places, or do not turn on the wireless LAN connection function of the device
- Places that may be used by people with cardiac pacemakers (may affect the operation of pacemakers, etc., and cause accidents)
- Near people with cardiac pacemakers or defibrillators (if they are too close, radio waves may affect the operation of the pacemaker, etc.)
- Near automatic control equipment such as automatic doors, fire alarms (causes of accidents due to equipment malfunctions)

If there is an abnormal odour, abnormal noise, overheating, or smoke, immediately unplug the equipment or turn off the breaker.
(Cause of fire or malfunction)
Please have it inspected by the dealer where you purchased it.

➢ **If the connection adapter is dropped or the case is damaged, unplug the device or turn off the breaker.**
(Causes of fire or electric shock)
Please have it inspected by the dealer where you purchased it.

➢ **Make sure that the product is not installed in a place where flammable gas may leak.**
(In the unlikely event that gas leaks, it may cause a fire.)

- ⚠ **CAUTION**

Do not attach the connection adapter within reach of young children.
(Cause of injury)

➢ **When installing and cleaning the connection adapter, do not get on an unstable base.**
(Causes of injuries such as falls)

If you are using the following people, use it when there is someone nearby who can manage it. Infants, children, the elderly, sick people, people with physical disabilities
(causes of physical illness)

- **Do not use the connection adapter near a microwave oven.**
(Causes affecting wireless LAN communication)
- **Do not use or store in the following locations:**

➢ In direct sunlight
➢ Places with poor ventilation.
➢ Places where rain, fog, etc. can enter directly
➢ Places with extreme high and low temperatures
➢ Dusty places

[Precautions when using wireless LAN]
- **About security settings**

➢ Since wireless LANs use radio waves to transmit and receive data, there is a risk of eavesdropping and unauthorized access. When using wireless LAN, please fully understand the dangers and manage the wireless LAN connection adapter of the device, the SSID / KEY of the wireless router, and the " member information" set in the app so that others do not know it.
➢ In the unlikely event that the product is operated from outside the home due to unauthorized access, turn off the wireless LAN connection function using remote control.

Safety Precautions

- **Before using the wireless router, set the security settings of the wireless router to "WPA2" encryption method.**
- **Please note that we are not responsible for any damage caused by the use of a wireless LAN router.**
- **About wireless LAN connection adapters and radio wave law**

➢ There is no need to apply for a license because this wireless LAN connection adapter has a built-in wireless device that has obtained required certification.

- **This product cannot be directly connected to the communication lines of telecommunications carriers (e.g., Internet providers). When connecting to the Internet, be sure to connect via a router.**

[Precautions for radio waves]

- **Use in the vicinity of other radios or microwave ovens may affect wireless communications.**

➢ Remote control may not be available. Please check the safety of the product thoroughly before use.

- **Make sure that your device has a signal from the wireless router.**

➢ Remote control may not be available. If the signal is weak in the vicinity of your device, please use it in a good radio wave environment, such as installing an access point in the vicinity.

[Safety precautions when using the app]

- Please be sure to follow the instructions in this instruction manual and on the product in various ways to ensure safe use.Please read the text after carefully understanding the contents (display and graphic symbols) and follow the descriptions.
- **The contents caused by ignoring the "indication" and mishandling are classified as follows.**

➢ ⚠ **WARNING**

It indicates "content that may result in death or serious injury."

- **The types of contents to be protected are explained by dividing them into "graphic symbols".**

❗ It represents "what must be done".

- ⚠ **WARNING**

❗ **When operating the device from outside the office, it is not possible to check the condition of the device, its surroundings and the people in the room. So make sure that it is safe in advance. In some cases, it may result in death, serious injury, or property damage.**

- **Check the following contents in advance (while at home)**

➢ The power plug is securely plugged into the root. There is no dust accumulation on the power plug.(Causes of heat generation, ignition, or fire due to poor contact or insulation)

➢ The status of settings set by others, such as timer scheduling.(Causes of illness due to unexpected driving or stopping.) Causes of adverse effects on flora and fauna)

➢ There are no abnormalities in the equipment. Even if there is a change in the wind, it will not adversely affect people or rooms. (e.g., there are no items that are easy to fly, etc.) (Wind causes things to fall, causing fires, injuries, and damage to household goods)

➢ Even if remote control is not possible, it will not adversely affect people or property.

- If you need to operate it, use the remote control in your home.
- If you are at home with an infant, a person with a disability, or an elderly person who cannot operate the remote control by yourself, or if there is a risk of incorrect operation, please operate it with the remote control in your home.

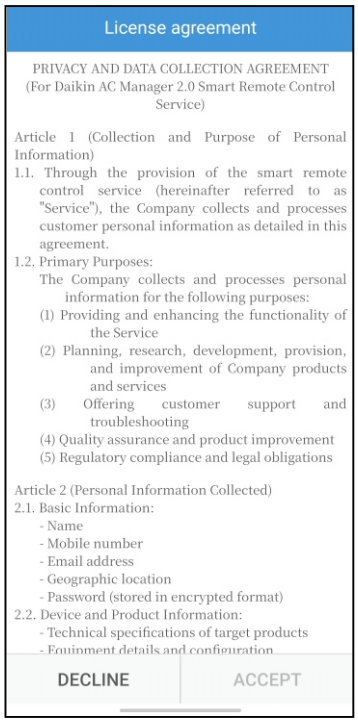

- **Check the following before and during operation from outdoors.**
- When you know people are around, let them know that you will be driving or stopping from outside.(If you are on a platform, you may be startled by sudden driving or stopping, causing you to fall or fall.) In addition, sudden changes in indoor and outdoor temperature and indoor environment can cause you to get sick)The temperature control and shutdown of the air conditioner can also be operated with a remote control in the home.
- Frequently check the settings and driving status.
  Depending on the communication status, the contents of the operation on the smartphone may not be reflected on the device.
  When you know that there will be people, let them know that you will be doing an operation.
  If an error occurs with the equipment, stop operation immediately and consult the dealer where you purchased the product.
  Double-check that it is stopped on the operation screen.

[Notice]

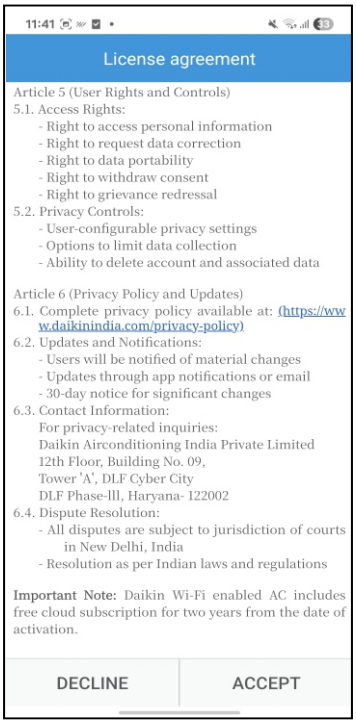

- The contents of the operation with the smartphone are not reflected on the display of the wireless remote control of the air conditioner.
- When operating the device from a smartphone, there is no reception sound from the device, but it is not a malfunction.
  Depending on the model of the air conditioner, the outside air temperature is not displayed when the air conditioner is stopped. (-°C) is displayed.
- To prevent accidental operation, we recommend that you enable the auto-lock feature on your phone.
- Depending on your smartphone, the screen display may vary.
- iPhone is a trademark and registered trademark of Apple Inc.
- Android is a trademark or registered trademark of Google LLC.
- Other company names and product names are trademarks or registered trademarks of their respective companies.

PROCESS TO INSTALL AND OPEN THE APP

- Download And Install the App Daikin AC Manager 2.0 from Google Play Store (Android OS)or iOS App Store.
- After installation, Open the App. User need to read and accept the License agreement .

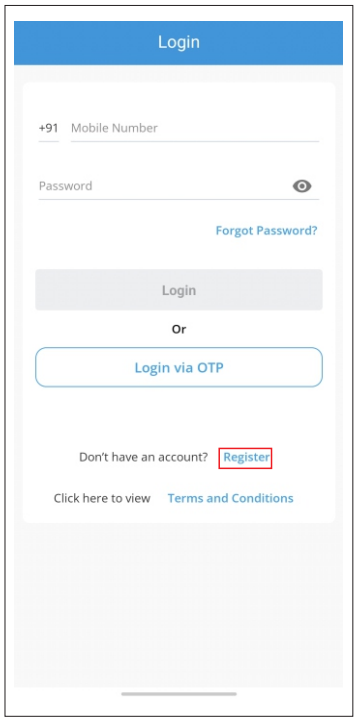

- License Agreement after installation of the application.
- User can read this License agreement by scrolling down.

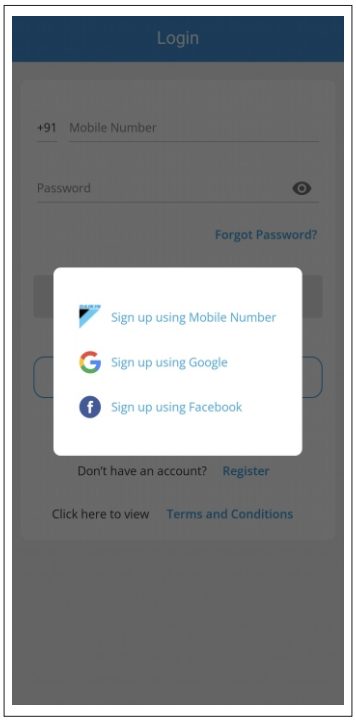

- User need to **"Accept"** the License agreement terms of use to proceed further.

PROCESS FOR NEW USER REGISTERATION

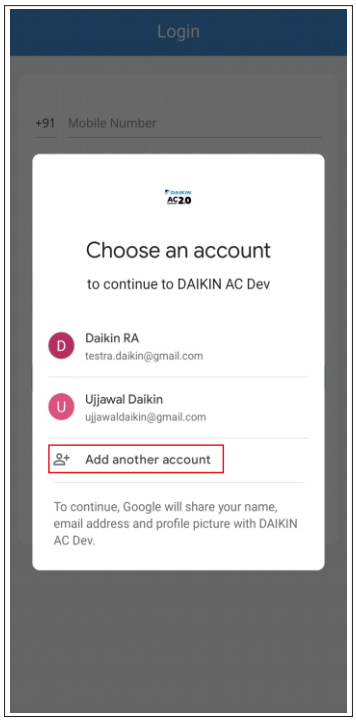

Log in or Register

- New users need to "Register" before login.
- If user had already registered then user can login using their Mobile number and Password.

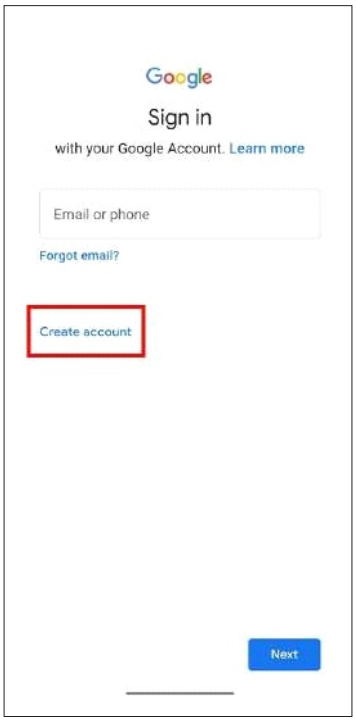

Sign Up

- User can register or sign up using Mobile Number, Google or Facebook.
- If user wants to sign-up using Google,then user need to select the same.

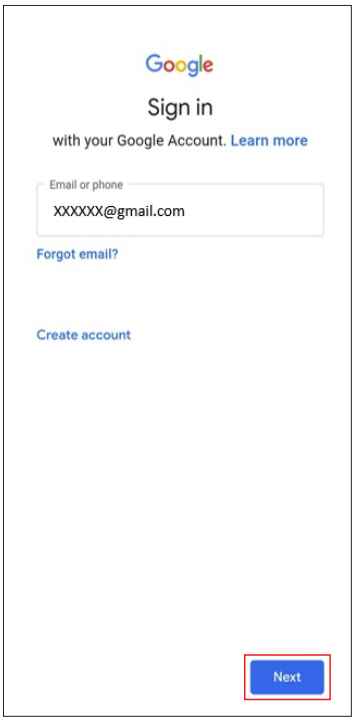

- Choose an existing Gmail account then user will be redirected to Daikin App Registration Page as shown in next page.
- Choose “Add another account” and follow as mentioned.

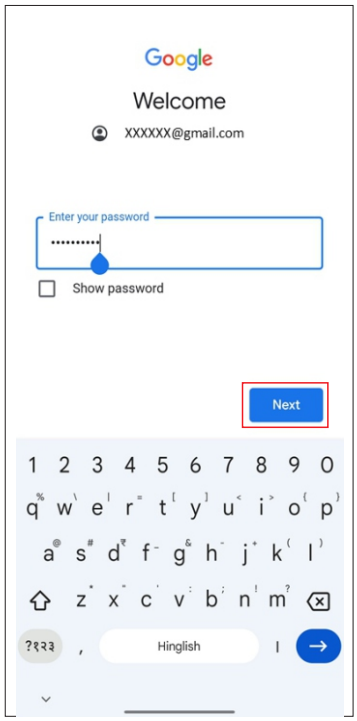

Sign in or Create account on Google

- User can sign in using their Google Account or sign up by tapping on "Create account"

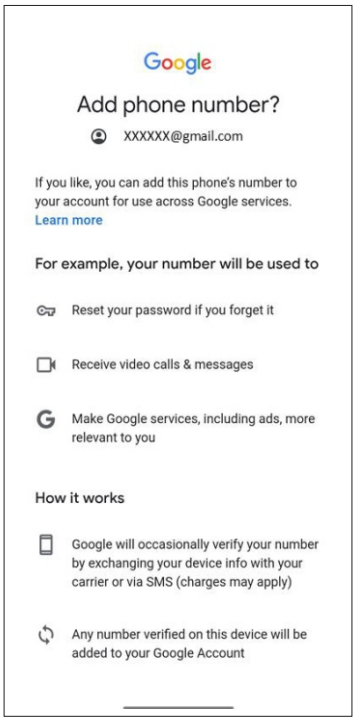

PROCESS FOR NEW USER REGISTERATION (USING GMAIL ID)

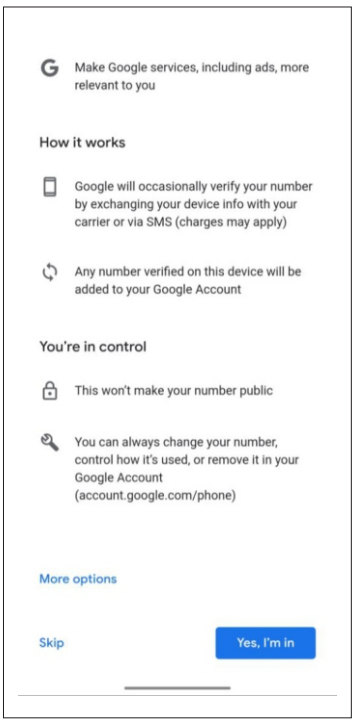

- Enter Email or phone number and tap on **"Next"**.

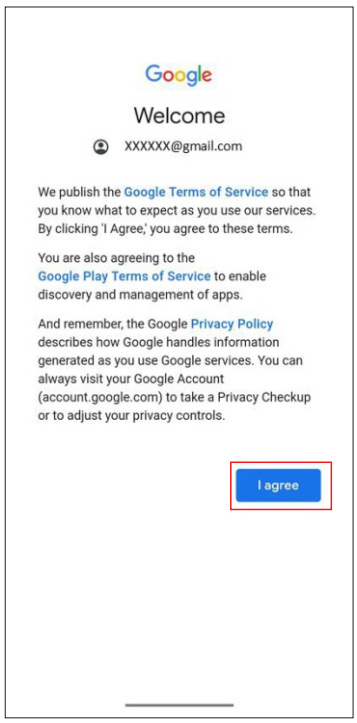

- Enter password and tap on **"Next"**.

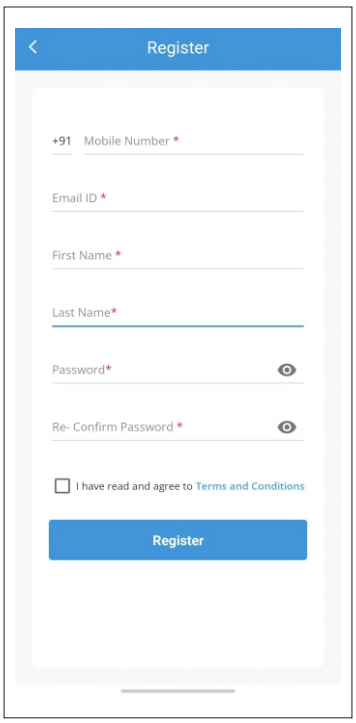

- User can add phone number to their Google account if already not added.
- Scroll down and read to the bottom.

- Select **" Yes, I'm in"** if adding the number.
- Select **"Skip"** if not adding the number.

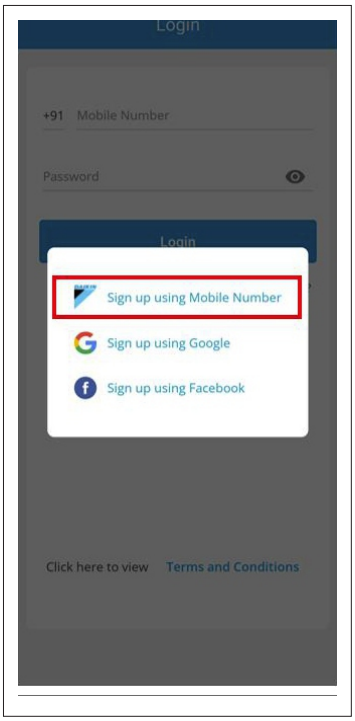

- Tap on **"I agree"** to complete the registration using Google.

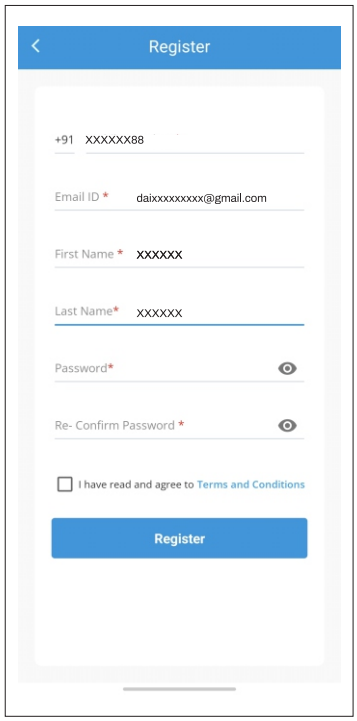

- User will be redirected back to the App.
- Email Id, First Name and Last Name will be auto-filled by Gmail account. User need to enter Mobile Number and set a password to complete the registration on Daikin App.

PROCESS FOR NEW USER REGISTERATION (USING MOBILE NUMBER)

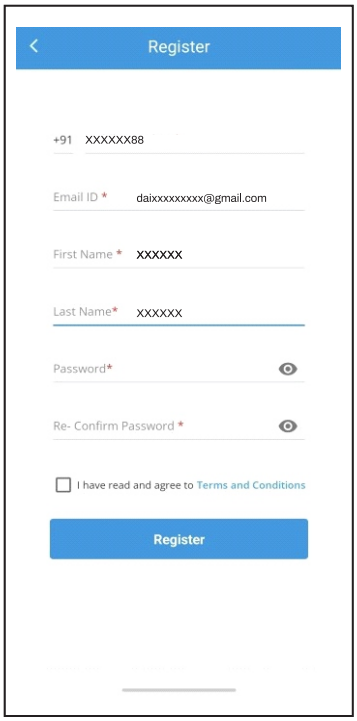

Sign up using Mobile Number

- Tap on **"Sign up using Mobile Number"**.

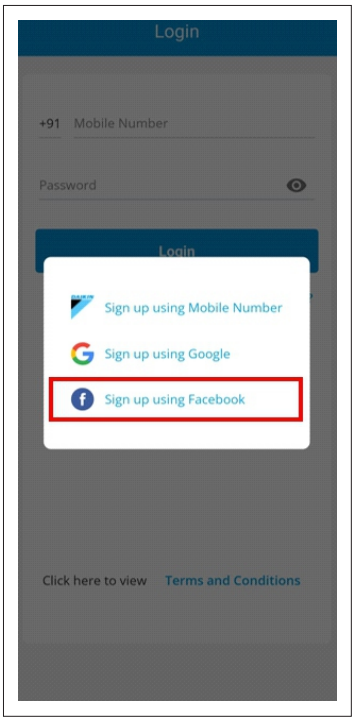

- Now, enter all the required details to complete the registration on Daikin app

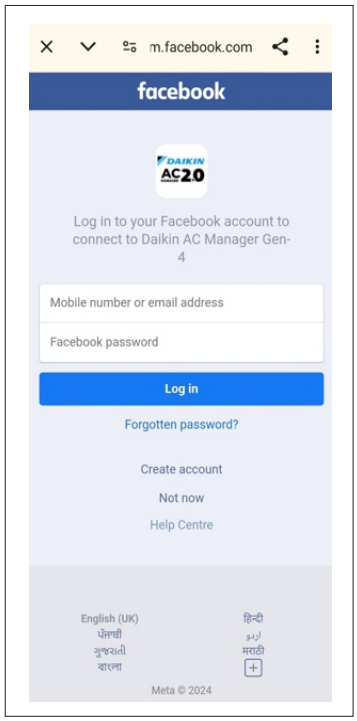

- User can read **"Terms and Conditions"** by tapping on it.
- Tick the "I have read and agree to "Terms and Conditions" and Register

PROCESS FOR NEW USER REGISTERATION (USING FACEBOOK ID)

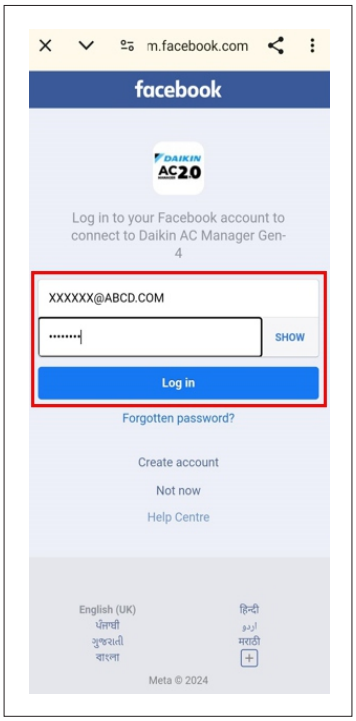

Sign up using Facebook

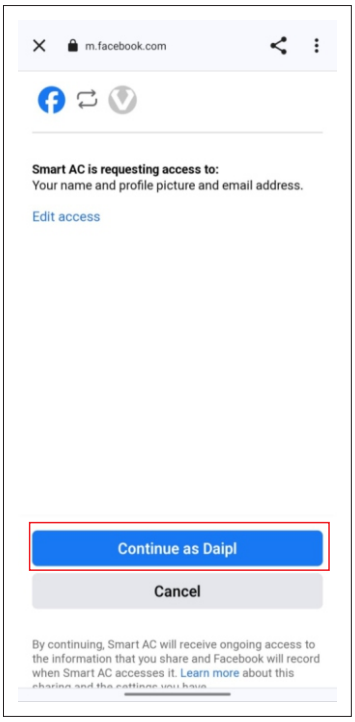

- Tap on **"Sign up using Facebook"**.

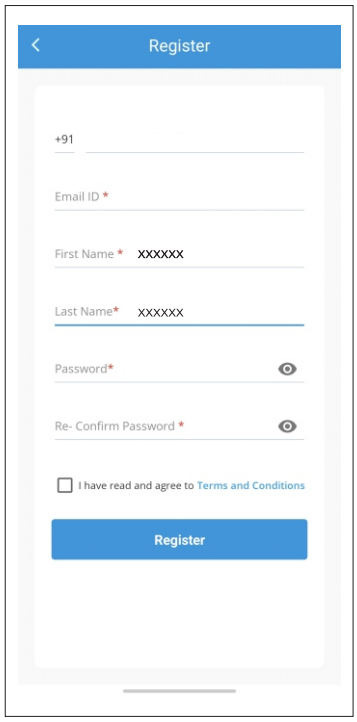

- User will be redirected to Facebook Login page.
- Enter registered **Mobile number or email address and password to Login**.

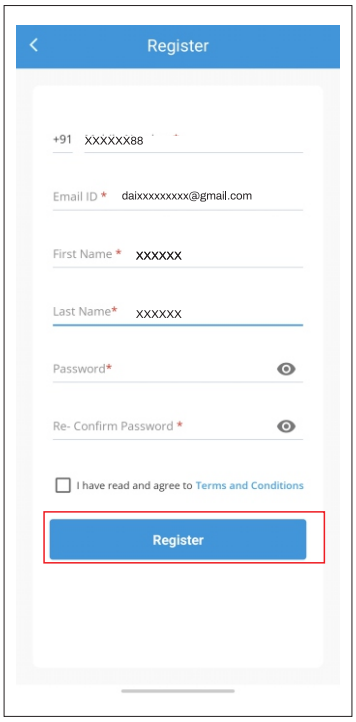

- After entering required login details, tap on **"Log In"**.

- User will be asked to give access to their name, profile picture and email address.
- Tap on **Continue** to proceed.

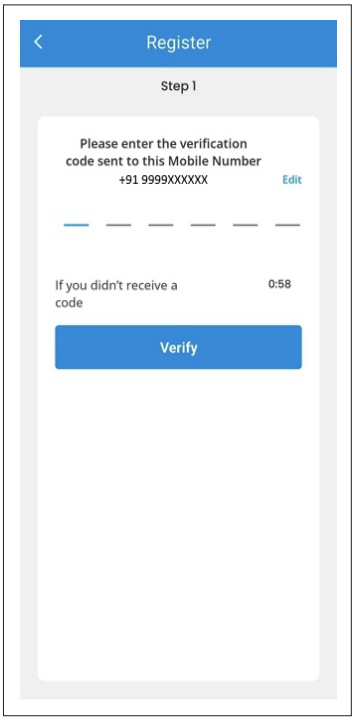

- User will be redirected to Daikin App to complete the registration.
- First Name and Last Name will be auto-filled from Facebook account. User need to enter Email Id, Mobile Number and set a password to complete the registration on Daikin App.

- User can read **"Terms and Conditions"** by tapping on it.
- Tick the "I have read and agree to Terms and Conditions" and Register

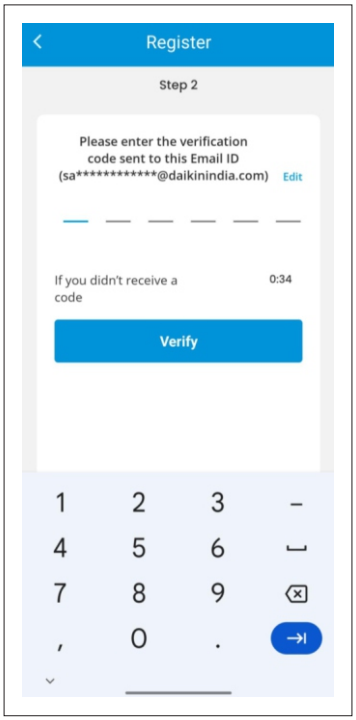

PROCESS FOR NEW USER REGISTERATION (USING FACEBOOK ID)

- After entering all the required details, OTP would be send to registered phone number and email ID.
- Complete the verification by entering OTP to finish the registration.

Mobile Number Verification

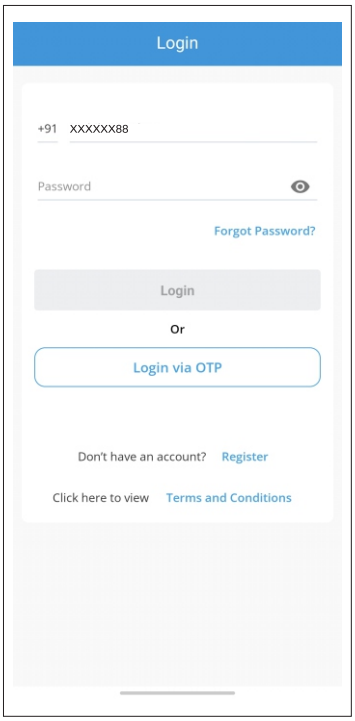

- App will automatically detect the OTP or user can enter manually.

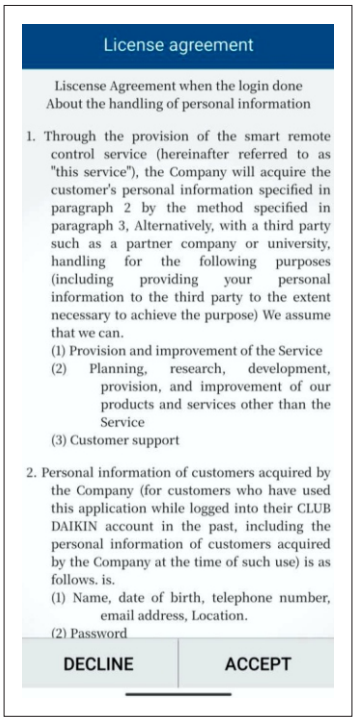

Email ID Verification

- User need to enter **OTP** manually received on registered Email ID.
- If OTP is not received within 60 seconds then user can again request for OTP.

PROCESS FOR LOGIN

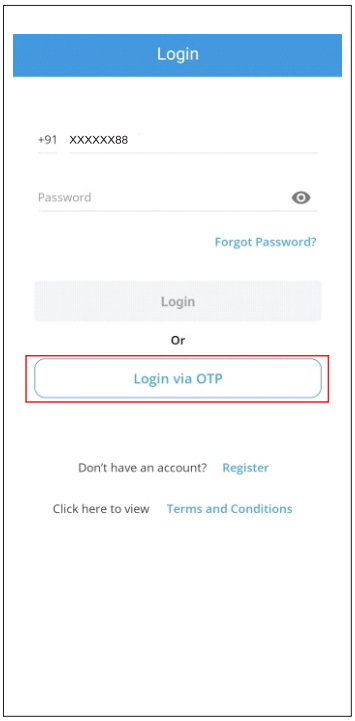

- After completing the registration and verification process,user can Login by entering registered mobile number and password.
- A password must contain at least 8 characters includes 1 lower & upper case, 1 digit and 1special character.

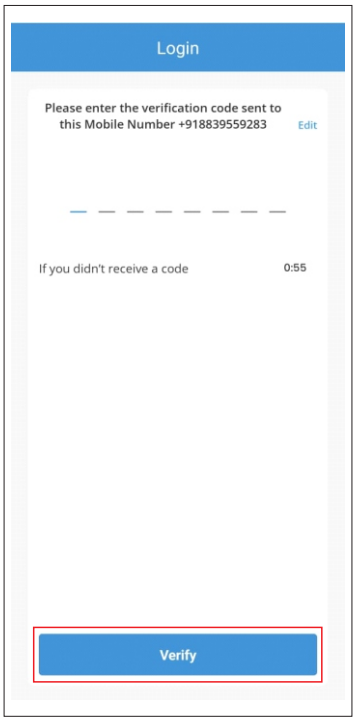

License Agreement when the login done

- User can read this License agreement by scrolling down.
- User need to Accept this License agreement to proceed further.

PROCESS FOR LOGIN via OTP

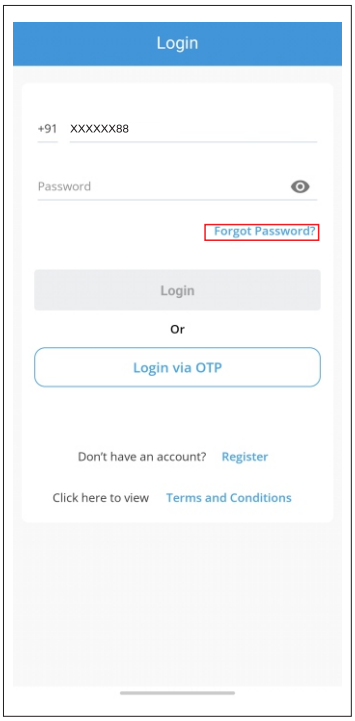

- In order to login via OTP user need to enter registered mobile number and than click on login via OTP.

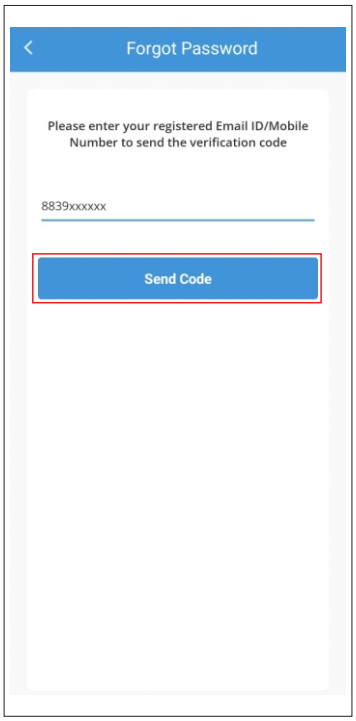

- User need to enter verification code received on the registered mobile number and click on verify.

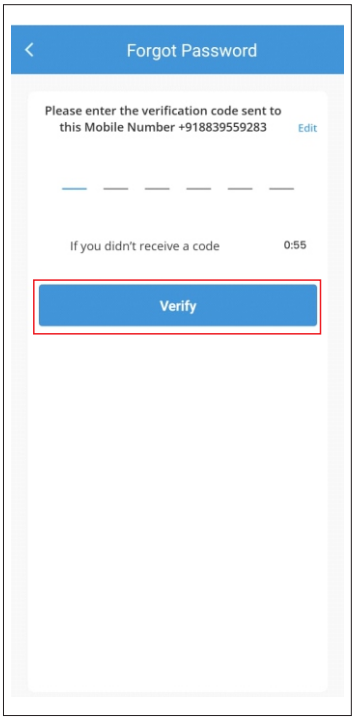

PROCESS TO RESET FORGOT PASSWORD

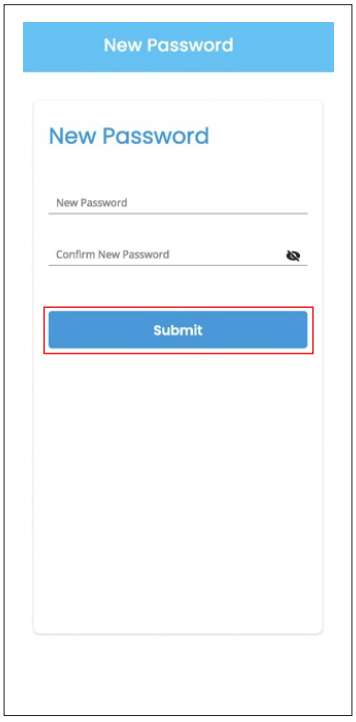

- In case, user forgets the password.
- Tap on “Forgot Password?” on Log In page as shown.

- Now, Enter the registered Email ID/ Mobile Number to receive the OTP.

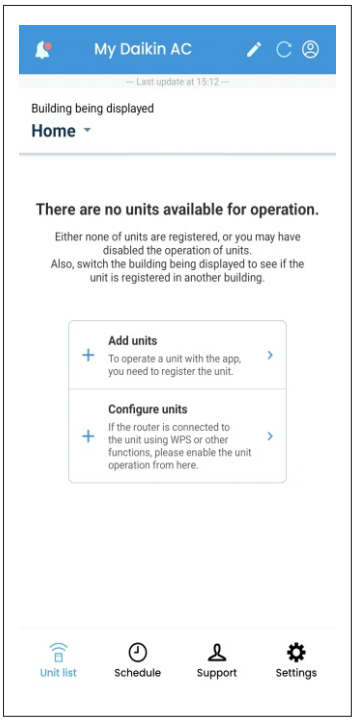

- App will automatically detect the OTP or user can enter manually.

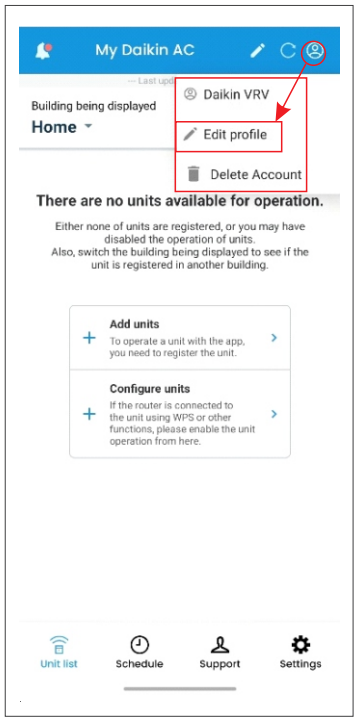

- Set the **New Password.**

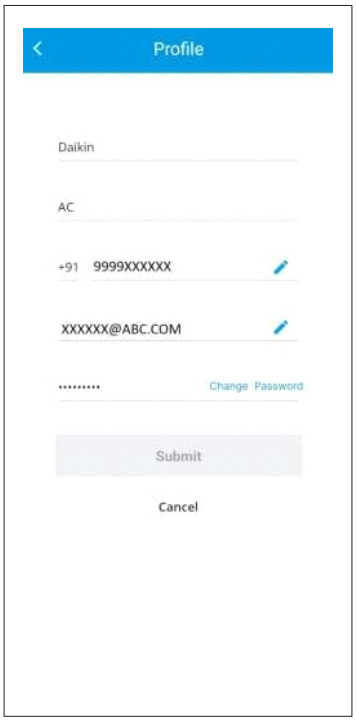

APP HOME PAGE

- This is the App Home Screen after login.

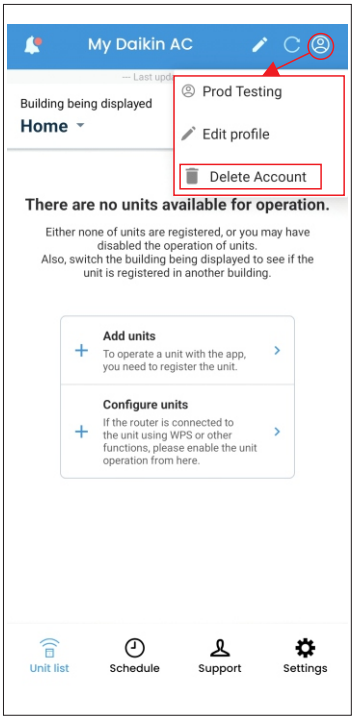

- User can view their Profile by tapping on top right corner of the screen.
- **Username and "Edit profile option"** are available.

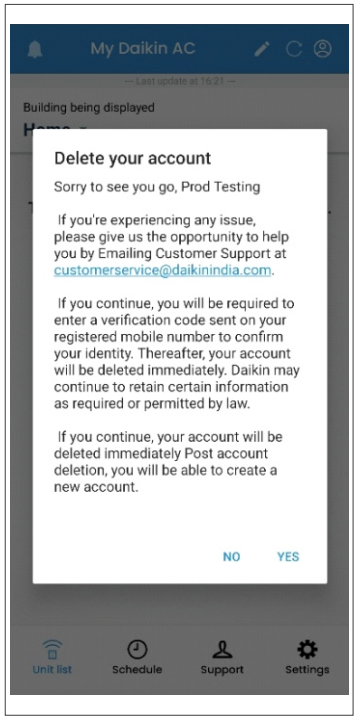

- To view Profile, tap "Edit Profile".
- Username, registered mobile number and email are shown here.
- User can also change password here.

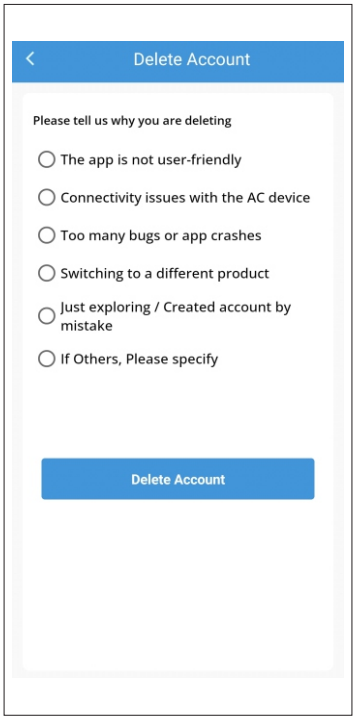

To Delete Account, follow the steps as mentioned below:-

- On this screen, tap on "Delete Account".

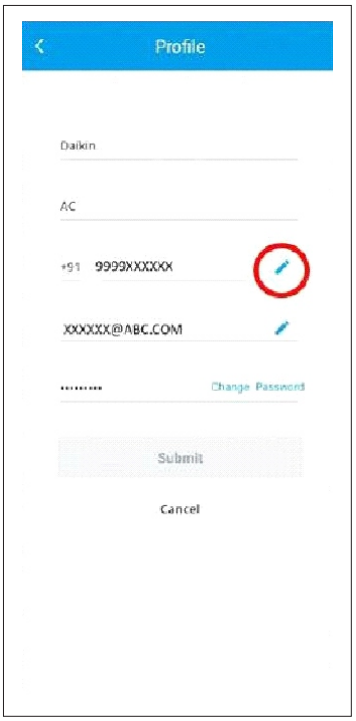

- Tap "YES" to give confirmation to delete the account.

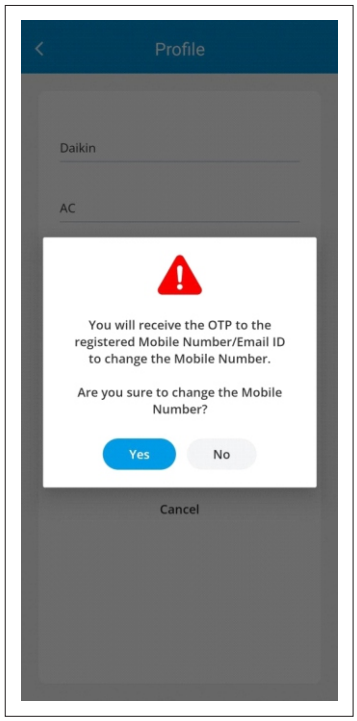

- Select any mentioned point and Tap on "Delete Account".

PROCESS FOR EDITING PROFILE DETAILS

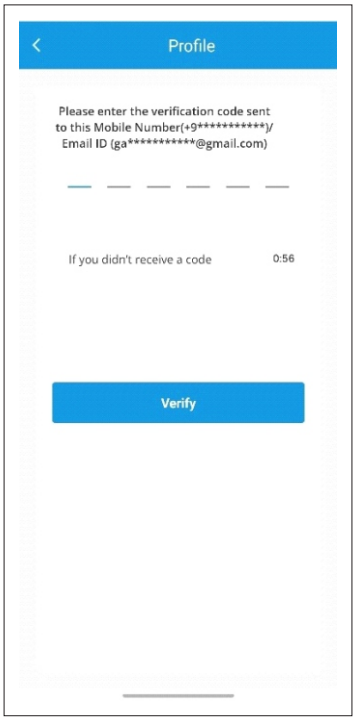

Change Mobile Number

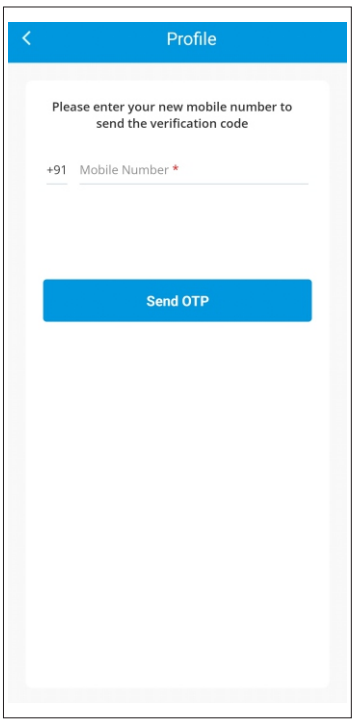

- User can change their registered mobile number by using edit icon as shown.

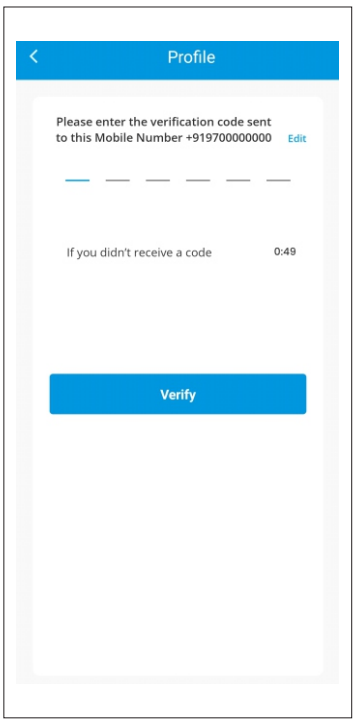

- OTP will be sent to the registered Mobile Number and Email.
- User need to select **"Yes"** to proceed.

- Enter the received OTP on this screen and tap on **"Verify".**

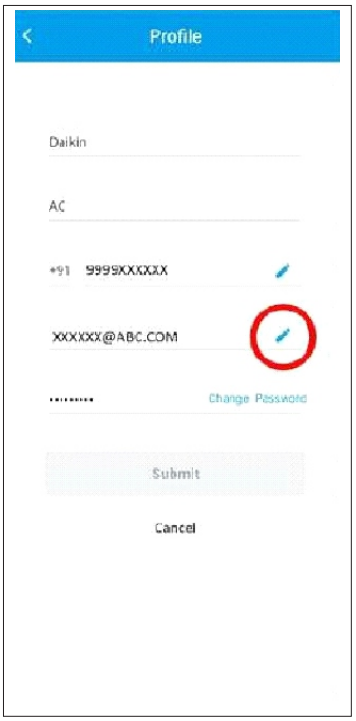

- Enter the new mobile number to send the verification code.

- User need to enter the verification code.
- The registered mobile number is changed.

PROCESS FOR EDITING PROFILE DETAILS

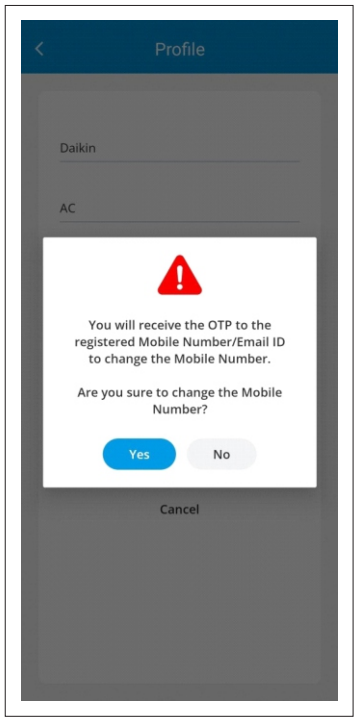

Change Email ID

- User can change their registered Email ID by using edit icon as shown.

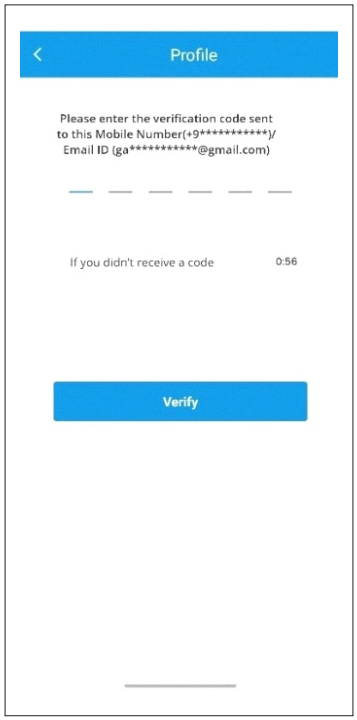

Note:

- The first name & last name can also be edited from the profile page.

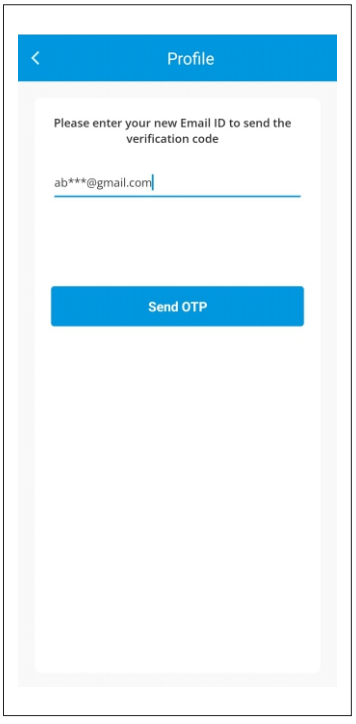

- OTP will be sent to the registered Mobile Number and Email.

  User need to select **"Yes"** to proceed.

- Enter the received OTP on this screen and tap on **"verify"**.

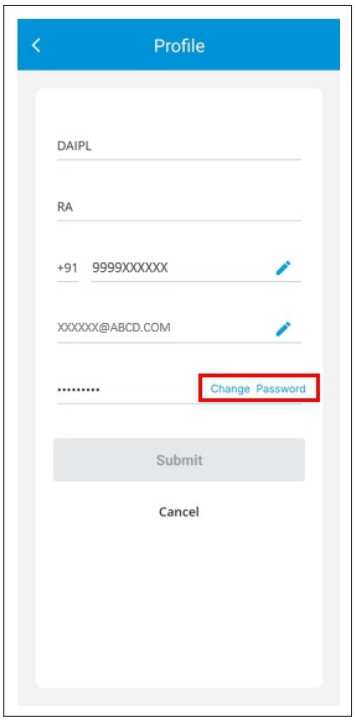

- Enter the new E mail account to send the verification code.

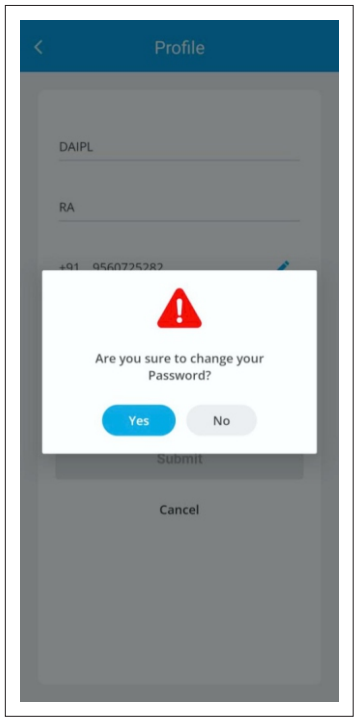

- User need to enter the verification code.
- The registered E mail account is changed

PROCESS FOR EDITING PROFILE DETAILS

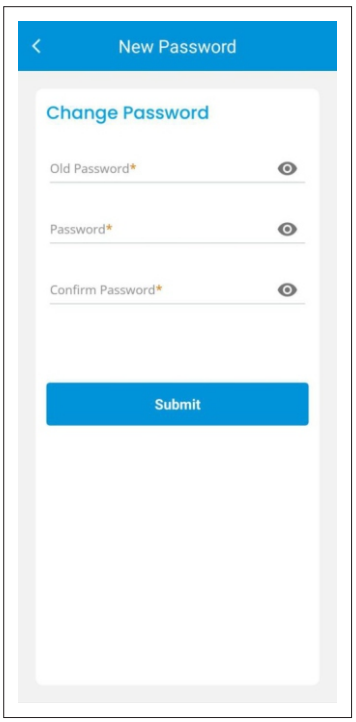

Change Password

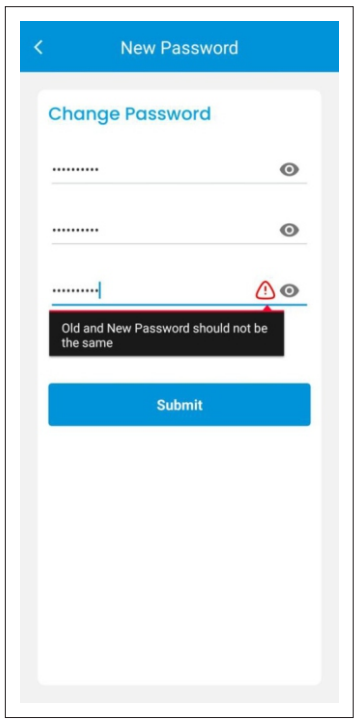

- To change your login password, Tap on **"Change Password"** on profile page as shown.

- Tap on **"Yes"** to confirm.

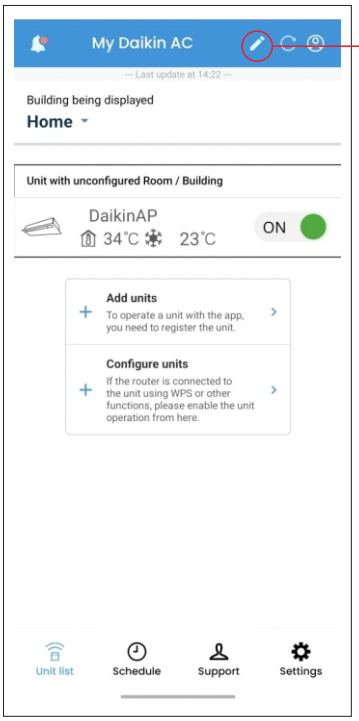

- Enter your old password and new password on this screen. Then tap on 'Submit' to proceed.

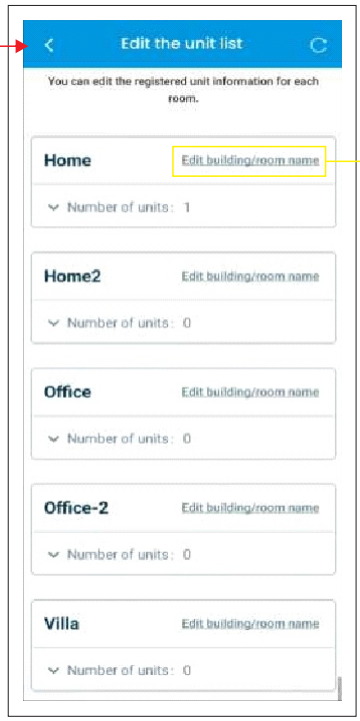

- Old and New Password should not be the same.

PROCESS FOR EDITING THE BUILDING NAME and ROOM NAME

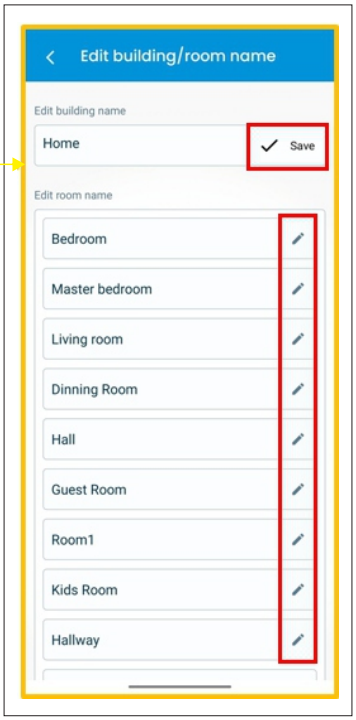

Initial Home screen

- Tap on edit icon on home screen as shown above to view and edit the unit list.

- On this screen, user can view registered number of units for each room.
- User can also edit building/room name here as shown.

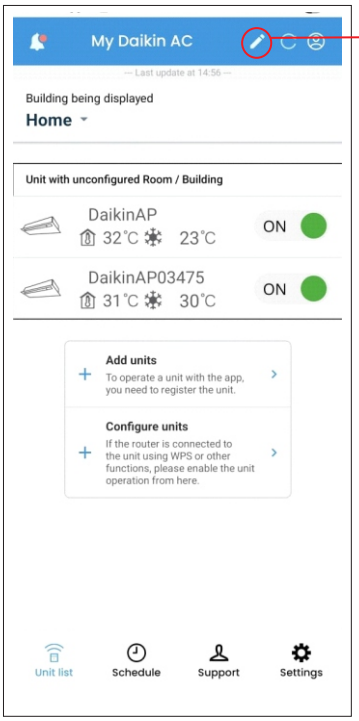

- User can now edit Building Name and Room Name.

Note:

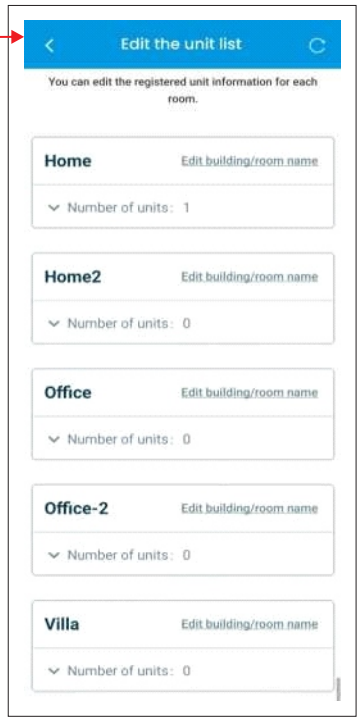

- Type the building or room name directly instead of copying and pasting it from another file, such as text. If you copy and paste a large amount of text into the input box, you may not be able to paste it correctly.

PROCESS FOR REGISTERING UNIT TO A ROOM OF A BUILDING

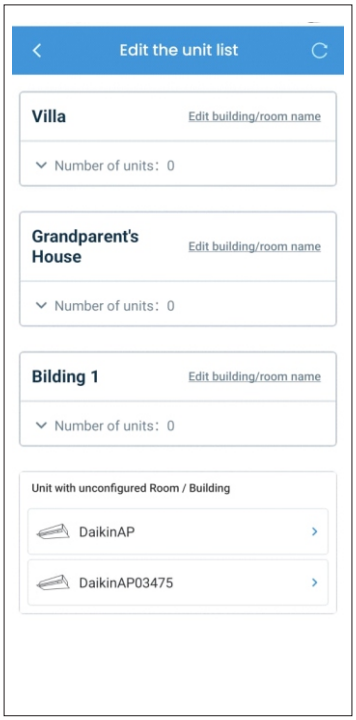

Initial Home screen

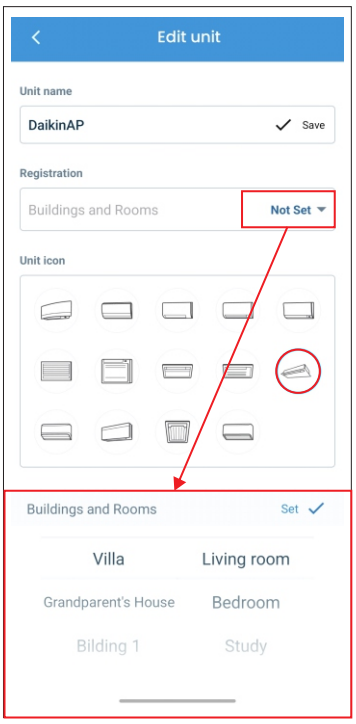

- Tap on edit icon on home screen as shown above to view and edit the unit list.

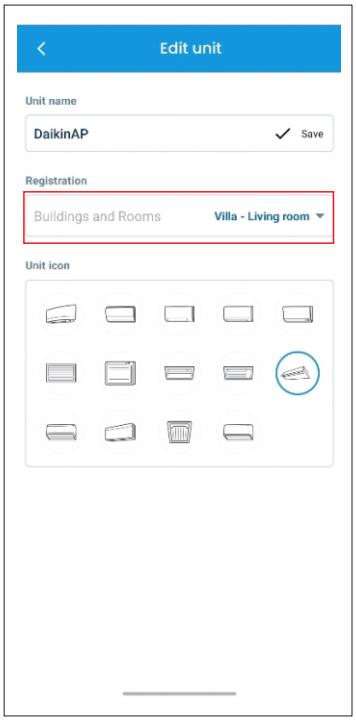

- On this screen, scroll down to view Unit with unconfigured room.

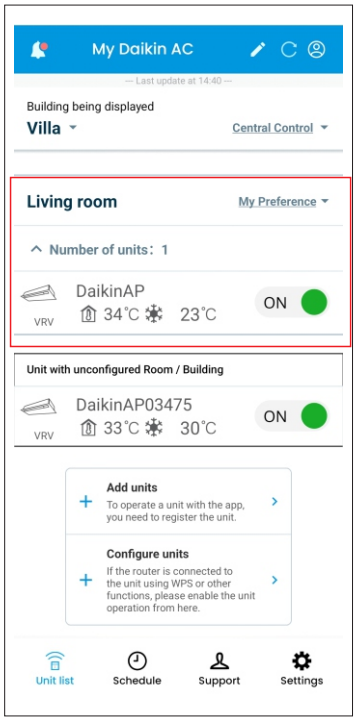

- Select the unit you want to register in the **"Unit with unconfigured room"** section

- Tap on "Not Set" as shown and select the Building and Room to which you want to add the unit. Then Tap on Set.
- User can also set Unit name.

- Now, you can see the selected Building and Room.

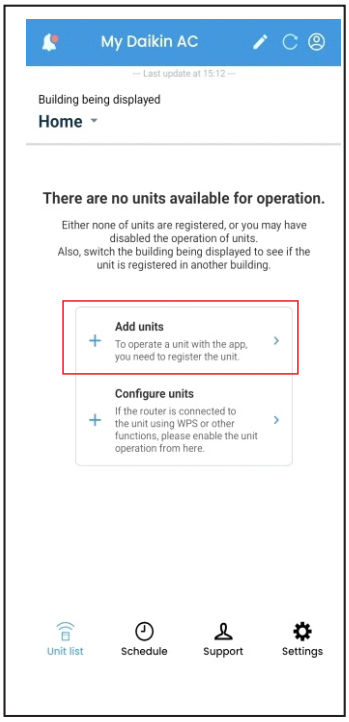

- The unit is registered to a room of a building.

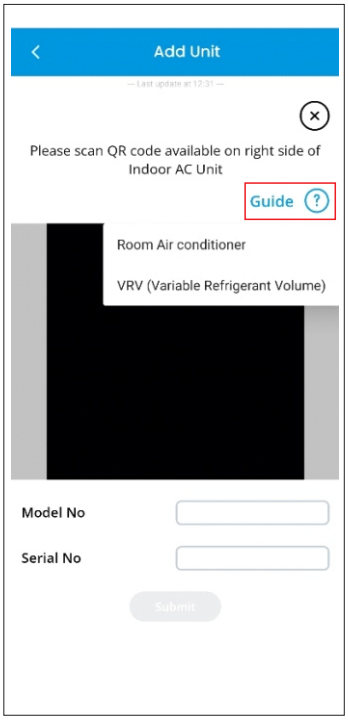

Note:

- Up to 10 devices can be registered in one room.

HOME PAGE - HOW TO START A UNIT

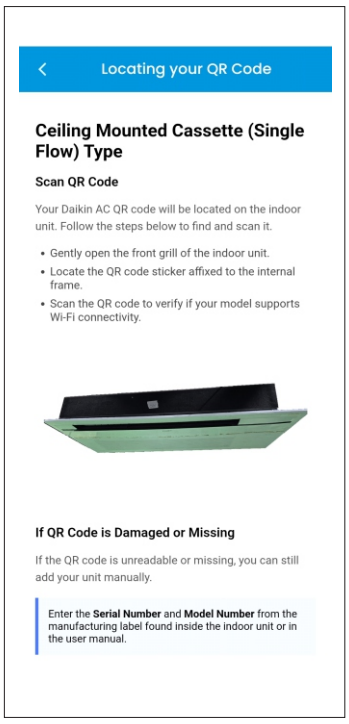

- Ensure the unit to be added is turned ON.
- Press on the Add units.

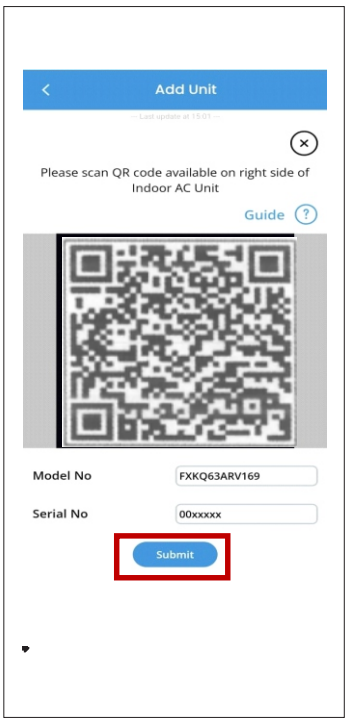

- Click on Guide to get information about the location of the QR code

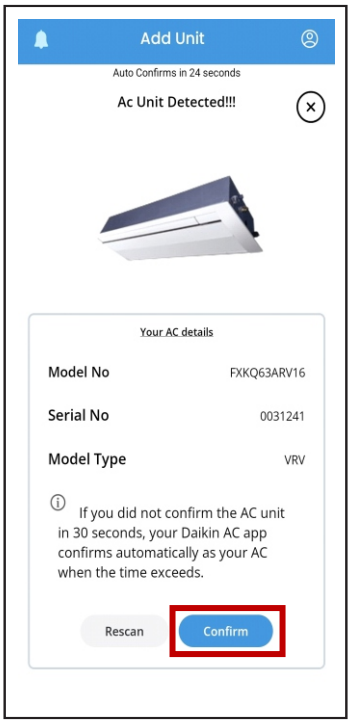

- Select your indoor unit model by clicking on it.

- Here user can read about the location of Daikin AC QR code.

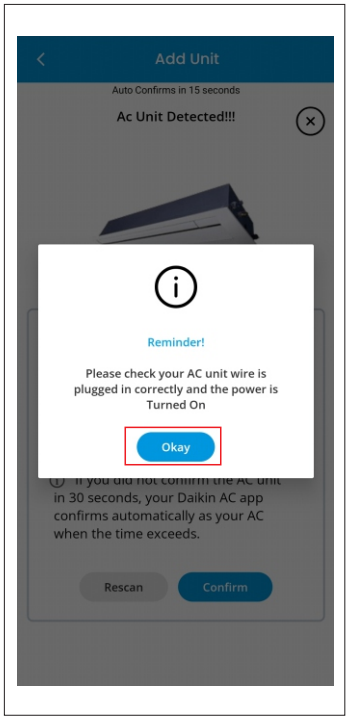

- Scan the QR code available on the right side of the indoor AC unit.

- Press on confirm

HOME PAGE - HOW TO START A UNIT

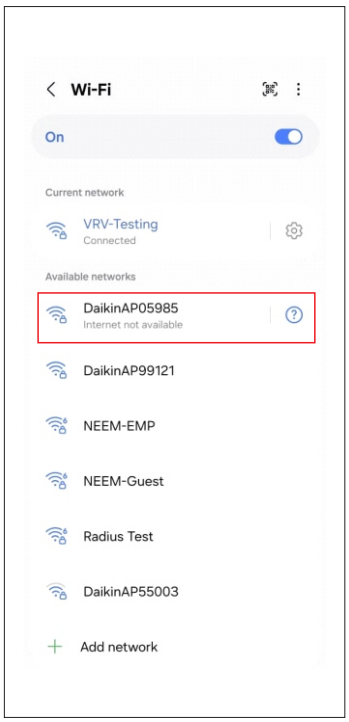

- Press on okay after Ensuring unit is ON.

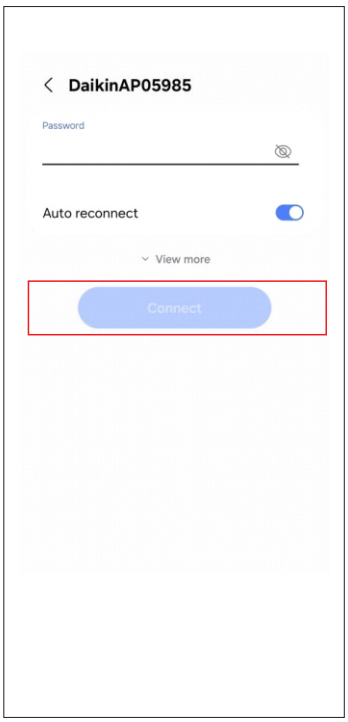

- Make sure your smart phone is connected to your Wi-fi router.

- Press on Go to Settings.

- Select your Unit wi-fi network its SSID and password is provided on the wi-fi adapter.

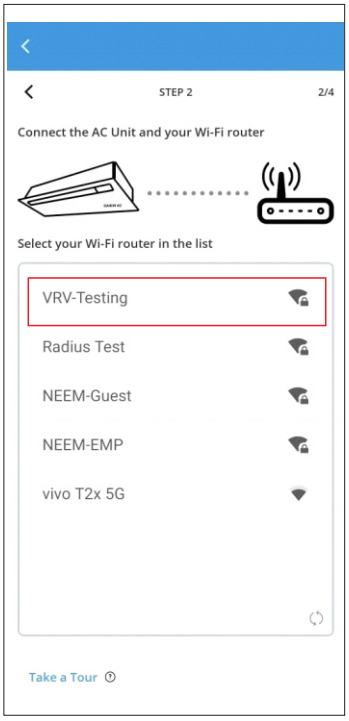

- Enter the password provided on the wi-fi adapter and then press connect.

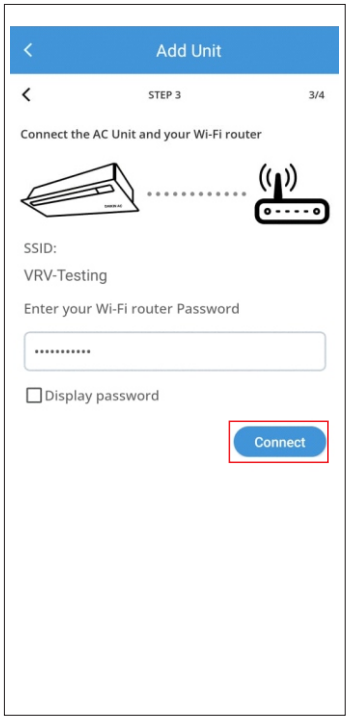

- As the unit wi-fi network is connected press to next.

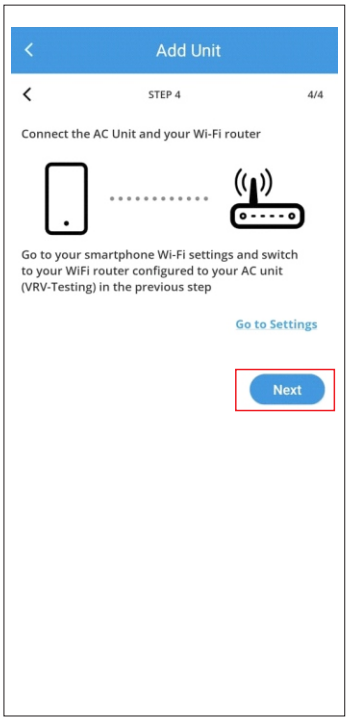

PROCESS TO ADD AC UNIT IN THE MOBILE APP USING ACCESS POINT (AP) MODE METHOD

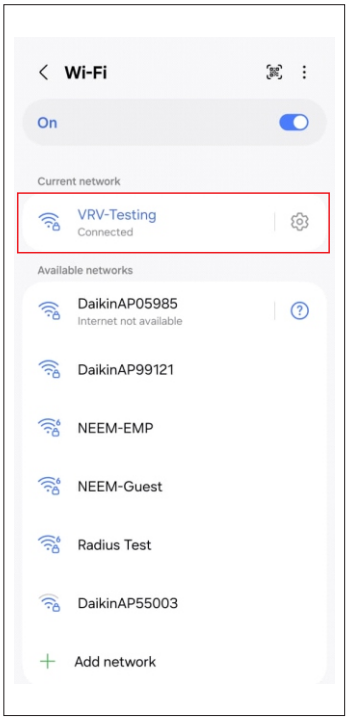

- Select the home router network.

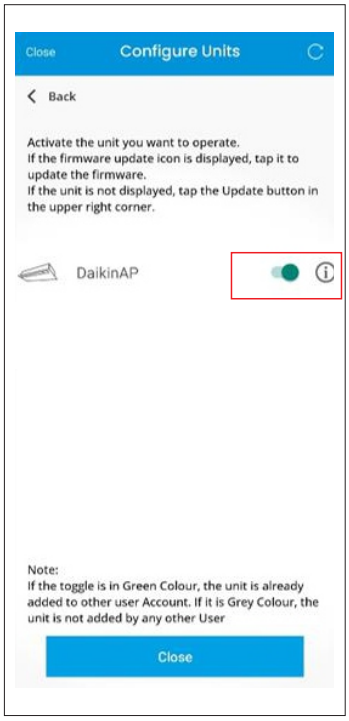

- Enter the password of home router and press connect.

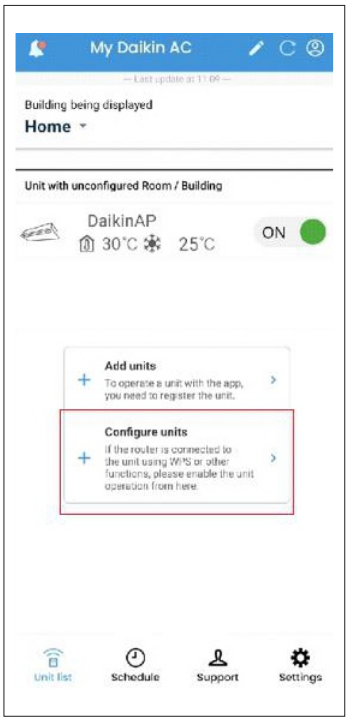

- Now Air Conditioner unit is successfully connected with home router.
- User need to connect smartphone with home router to operate the unit.
- Tap “Next” to proceed to the next Step.

- Select the home router network.

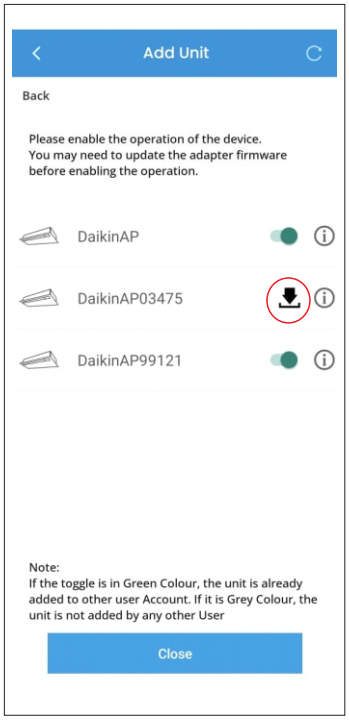

- Please ensure that the toggle button is turned ON to operate the unit.

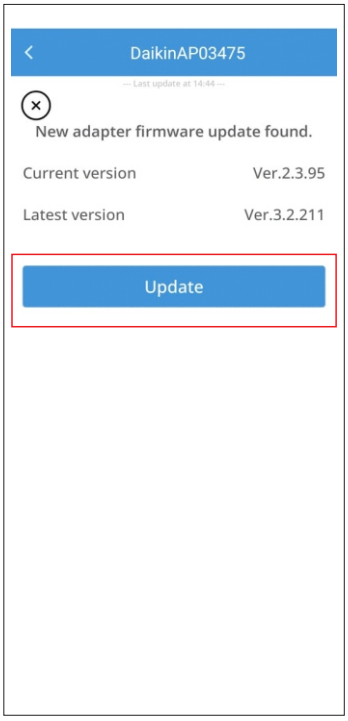

- After turning toggle button Unit is added.

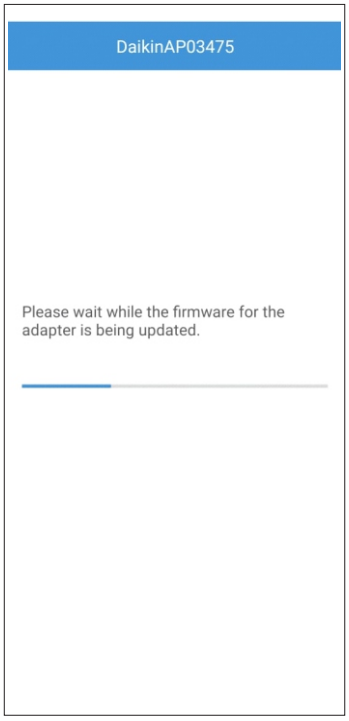

HOME PAGE – HOW TO UPDATE FIRMWARE

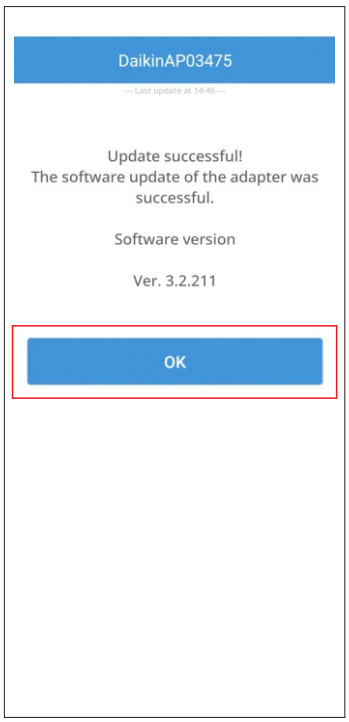

- Click on the symbol shown in the above image to proceed with firmware update.

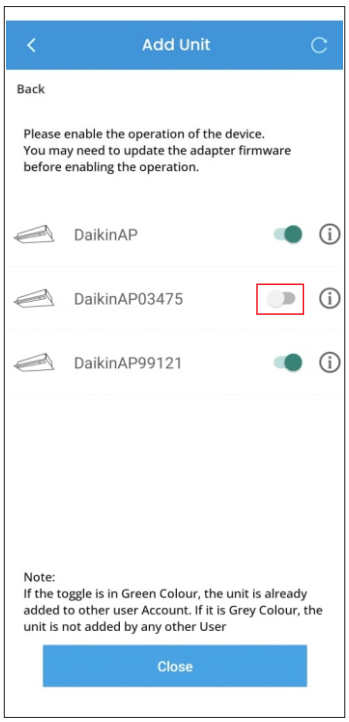

- Current version and Latest version details are shown on this screen. Top on update button to proceed.

- Current version and Latest version details are shown on this screen. Top on update button to proceed.

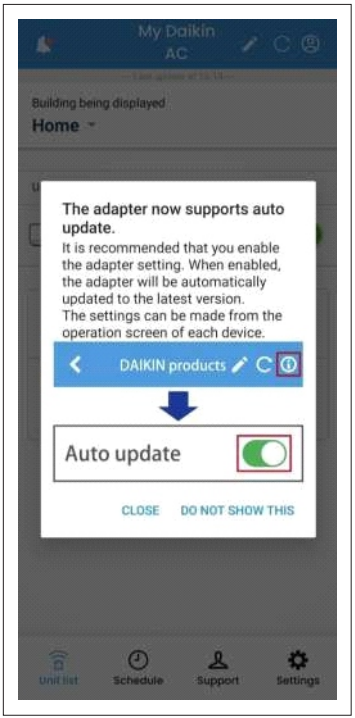

- This screen represents the firmware update successful.
  Tap on OK button to proceed.

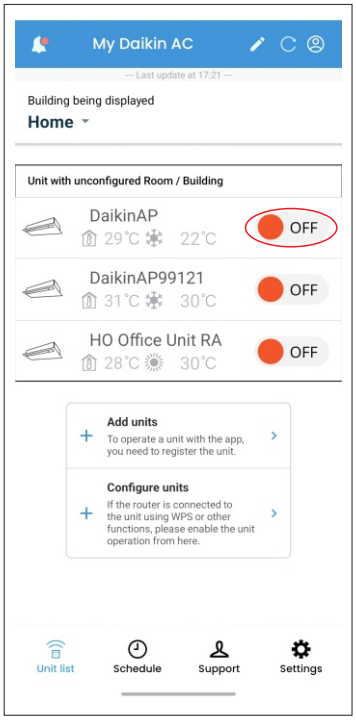

- Now, Turn On the toggle button.

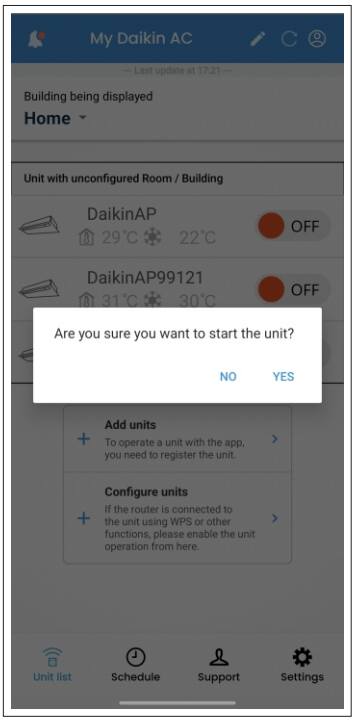

HOME PAGE - HOW TO START A UNIT

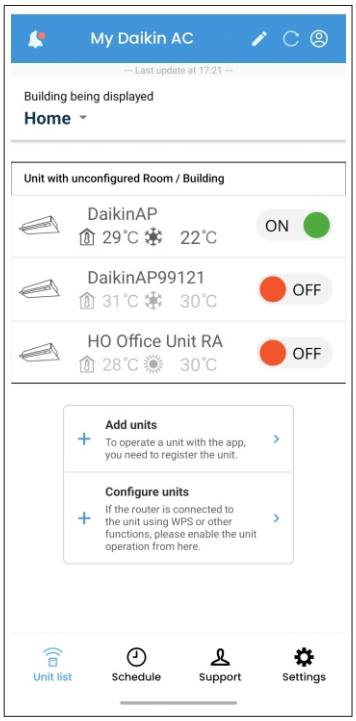

- Read this message and tap on “Close< to proceed.

- The represent AC unit is OFF. To ON the AC, tap on the toggle button present next the unit name.

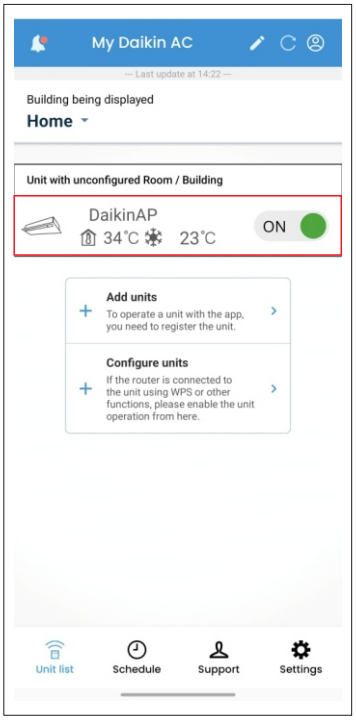

- Tap “yes” to confirm and turn on the AC unit.

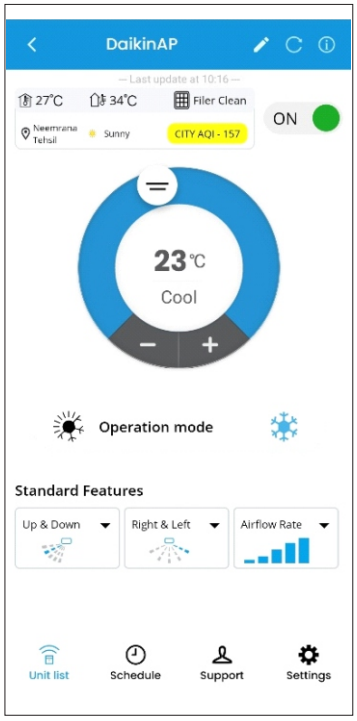

- AC Unit is turned ON as shown in the picture.

HOME PAGE - HOW TO START A UNIT

- Tap on AC unit name as shown above to operate the AC by mobile application.

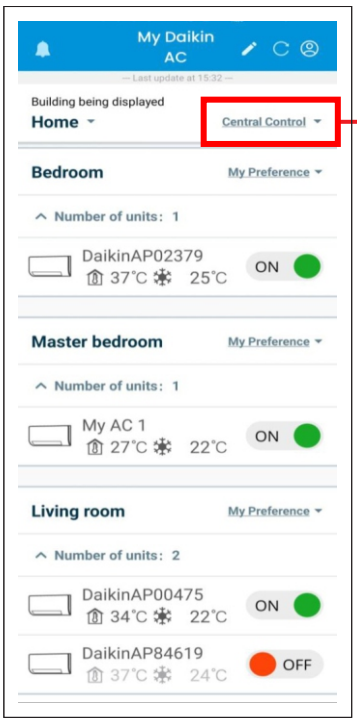

- On opening the AC unit, this screen will appear.

- User need to tap on Central control menu at the bottom of unit schedules as shown.
- With Enable all and Disable all features, user with a single click can enable and disable all schedules of the week at one time.
- User can use **Delete all** feature to delete all the schedules for the week.

- User can set operation mode (Cool, Fan, Heat & Dry), Set Temperature and Airflow Rate of all schedules set in a unit.

SUPPORT & SETTINGS SECTION

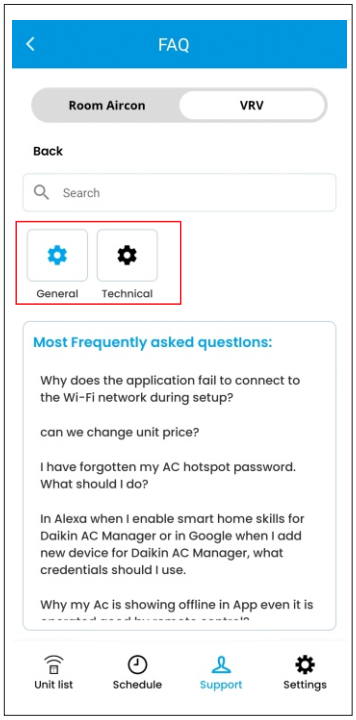

Support Section

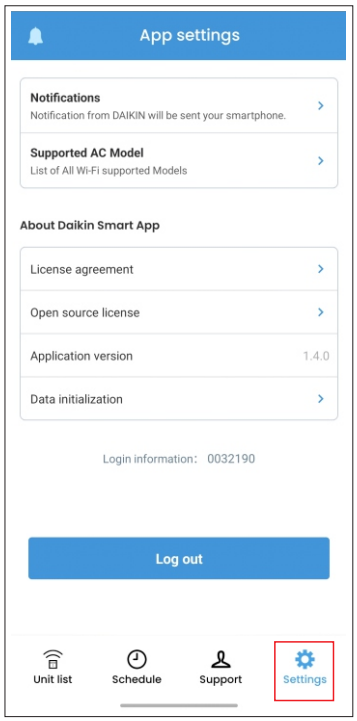

- From support Section, User can find out answers of frequently asked questions and Contact Daikin Service team through email, SMS or phone call.

- Users need to click on the VRV option and then select the model they have a query about.

- User can select between general or technical FAQ's.

Support Section

- If user wants to Log Out from the App, Check supported model list, Read Licence Agreement and App Version: user can do this from setting section.

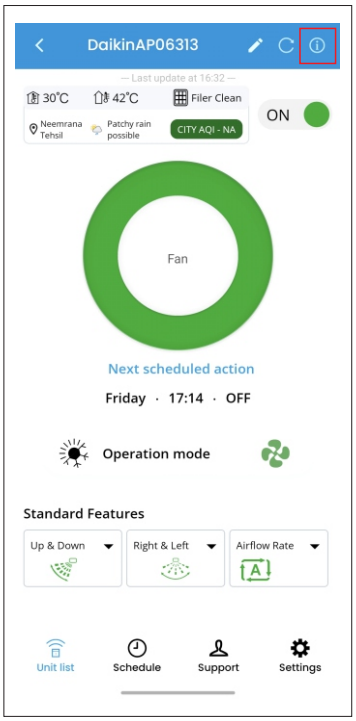

- Users need to click on the VRV option and then select the model they have a query about.

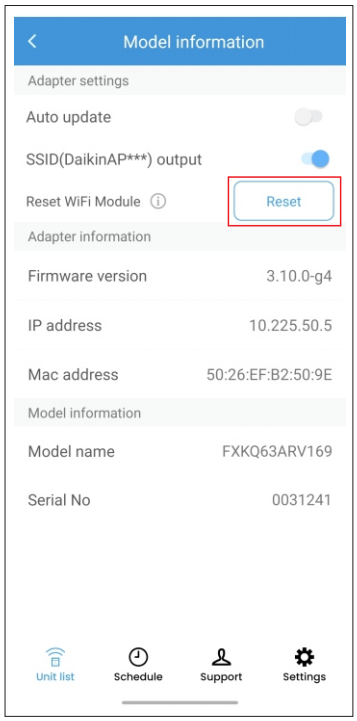

- Selecting 'Supported Models' displays the list of model series compatible with this application.

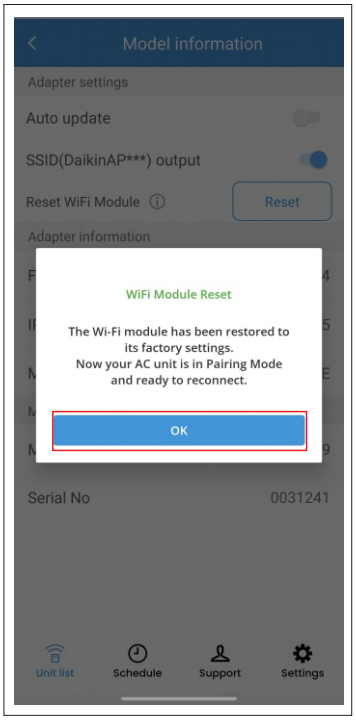

PROCESS TO RESET WI-FI MODULE

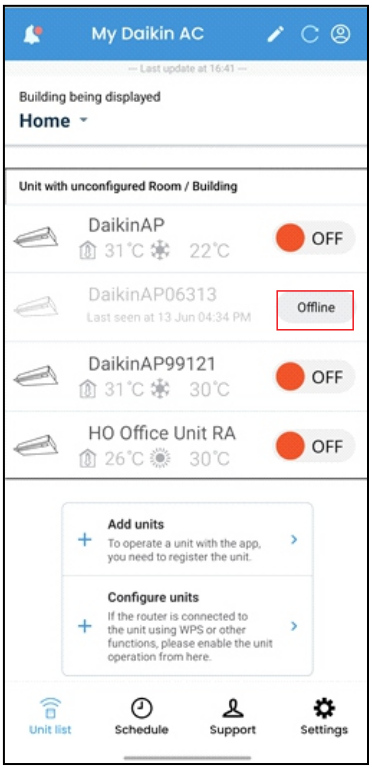

- In order to reset Wi-Fi module click on the above icon.

- User need to connect the smartphone to the particular unit wi-fi network which is required to be Reset.
- User need to click on the reset icon.

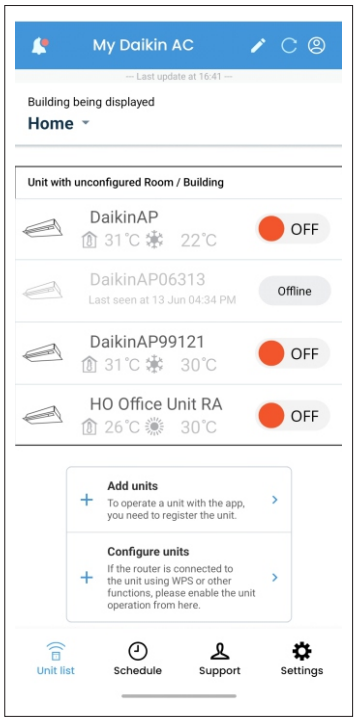

- The required Wi-fi module is reset now click ok to continue.

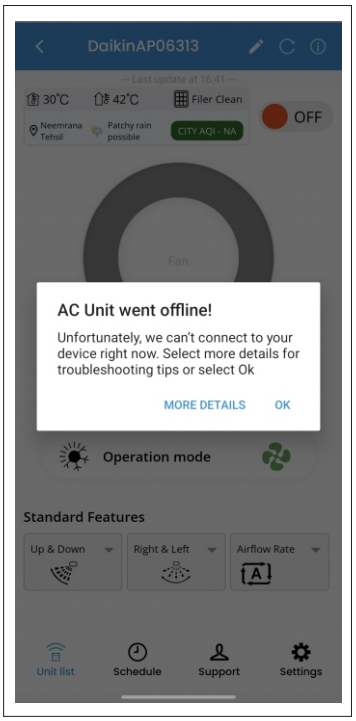

- After few minutes the unit will show offline status.

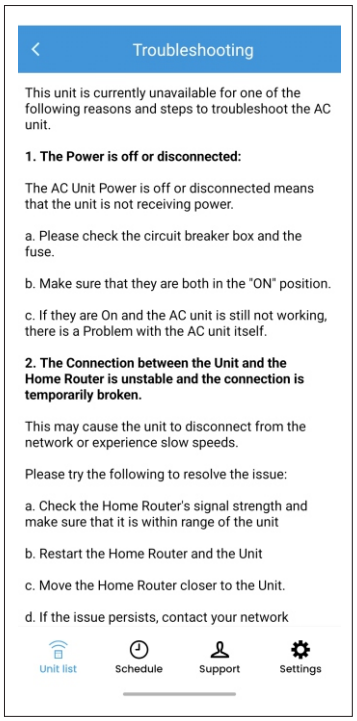

PROCESS TO REMOVE AN ADDED UNIT

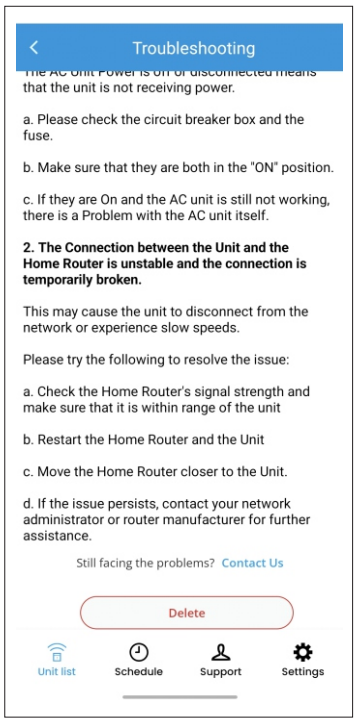

- Tap on offline icon next to the unit which you want to remove on Homescreen.

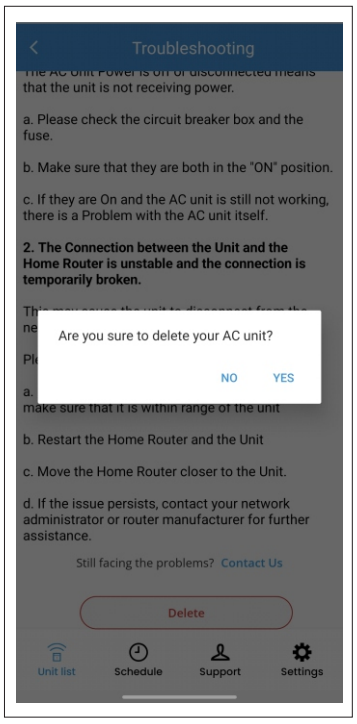

- Tap on MORE DETAILS to proceed further.

- User can read the troubleshooting methods on the screen. Scroll down to the bottom of the screen.3

- Tap on Delete to remove unit from App.

- Tap on Yes to give confirmation.

NOTES

- Supported OS Versions :
  a) For Android OS Version →8 and above.
  b) For IOS Version →14 and above.
- Home Wi-Fi Router must be operating at 2.4GHz.
- The maximum distance to add the air conditioner unit is around 7m.
- If the wireless network router is physically too away from the unit, server connection may get fail.
- The Wi-Fi module device complies with part 15 of the FCC rules. Operation is subject to the following two conditions :
  a) This device may not cause harmful interference.
  b) This device must accept any interference received, including interference that may cause undesired operation.
- This Wi-Fi module device complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment should be installed and operated keeping the radiator at least 20 cm or more away from person's body.
- If products are used in below conditions, it may damage products and leakage of electricity and abnormal temperature may occur.
  a) In an atmosphere containing corrosive gas (Cl2, NH3, SOx, NOx etc.)
  b) In an atmosphere containing combustible and volatile gases.
  c) Dusty place.
  d) Direct sunlight place.
  e) Water splashing place.
  f) Humid place where water condenses.
  g) Freezing place.
- The Wi-Fi device specification and frequency range details are :
  a) **Specification** : IEEE802.11b/g/n
  b) **Frequency Range** : 2412-2462MHz
  c) **Certifications** : WPC ETA Certificate.
- The color coding followed for different AQI level are mentioned below

AQI	Remark	Color Code
0-50	Good	
51-100	Satisfactory	
101-200	Moderate	
201-300	Poor	
301-400	Very Poor	
401-500	Severe	

- Images shown in the manual are for representation purpose, it can very from model to model.
- Due to continuous R&D, some features can be different for different models. Please visit Daikin Home Page for more information.
- During Fan Mode, the icon colour would Turn Green whenever that particular feature is active. While during Dry Mode, the icon will Turn Light Blue colour whenever that particular feature is active.
- When machine is in error condition like faulty heat exchanger temperature sensor (Error Code : C4) etc., a pop-up will show in App that an error occurred in the unit.

DAIKIN AC MANAGER 2.0 – SMART SPEAKER – Amazon Alexa

INDEX

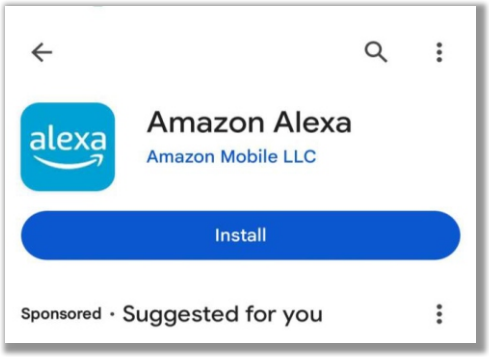

1. Alexa App Overview - 44-46
2. Alexa Device Setup (How to Connect Alexa Speaker with Alexa Mobile App) - - - - - - - - - - - 47-54

- After successfully signing in, you will see this screen. Please verify that your name is accurate. If it's correct, tap on it. If not, proceed by selecting 'I'm someone else' to complete the registration process.

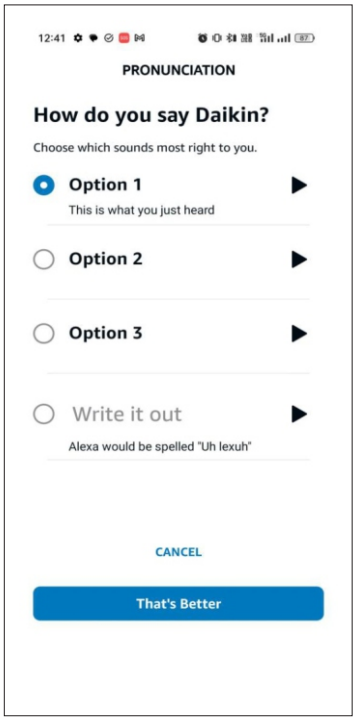

- Press play button to hear how Alexa says your name or you can skip this step.

ALEXA APP OVERVIEW

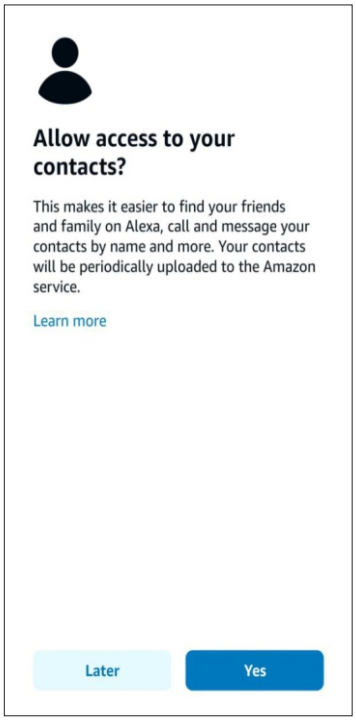

- If you are agree with how Alexa pronounces your name, press 'Perfect' to confirm. If you wish to fine-tune the pronunciation, select 'Let's Sort That.

- The 'Let's Sort That' option provides various alternatives for pronouncing your name. You can choose the one that best suits your preference. And click on “That's better”.

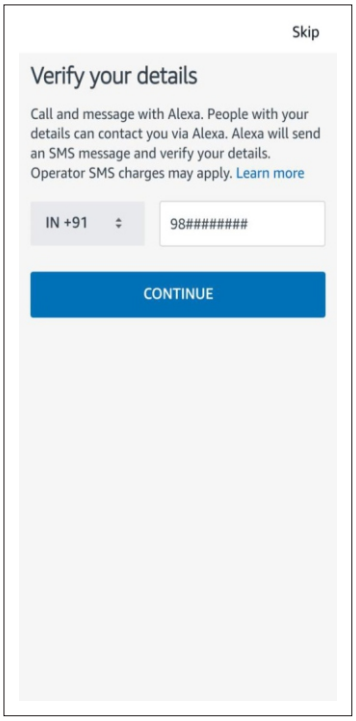

- Your account is now prepared for setup, allowing you to configure and customize your features. Let's proceed with the set 'Up My Features'.

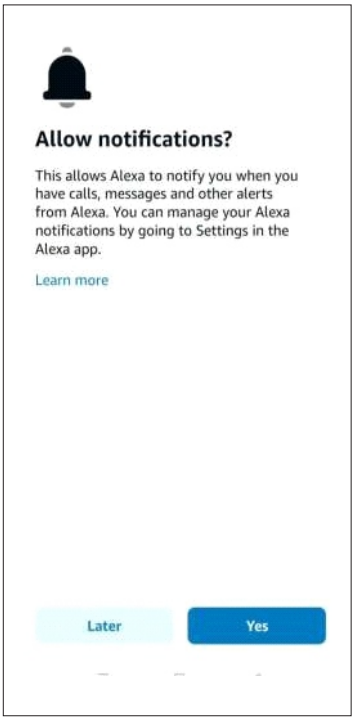

- User can allow access to their contacts or can do it Later.

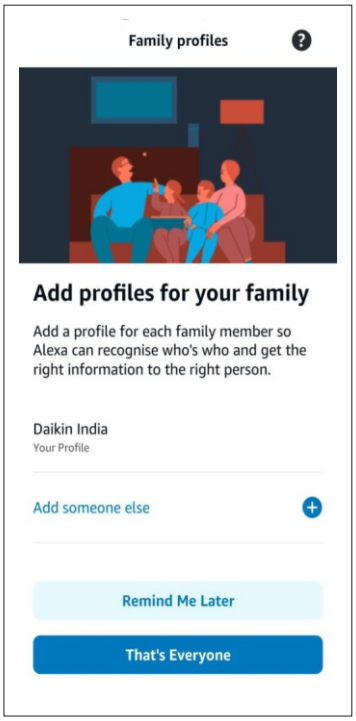

ALEXA APP OVERVIEW

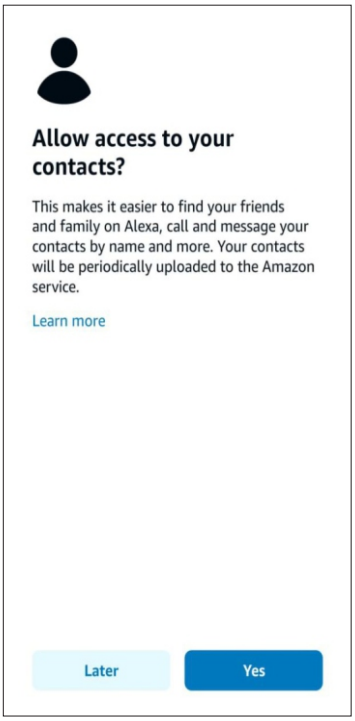

- Alexa will initiate the verification process by sending an SMS message to confirm your details

- User can accept the Allow Notifications or can do it Later.

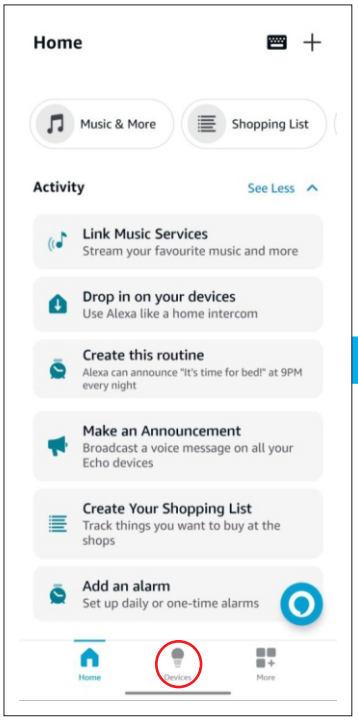

- Click on 'That's Everyone' to proceed next step or can Add Someone else.

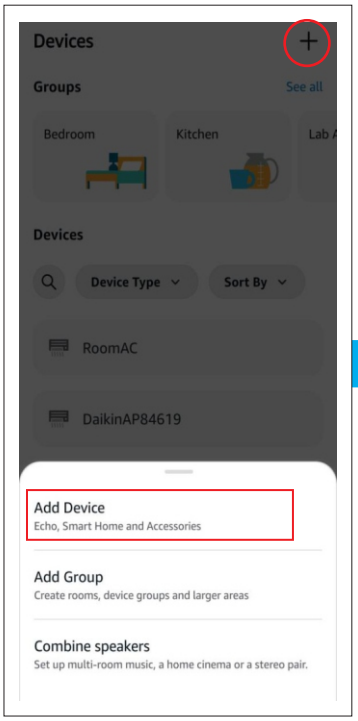

- Now user is ready to setup their Alexa device, and click on 'Done'.

ALEXA DEVICE SETUP (How to Connect Alexa Speaker with Alexa Mobile App)

User need to follow below steps to connect Alexa Smart Speaker with Alexa Mobile App.

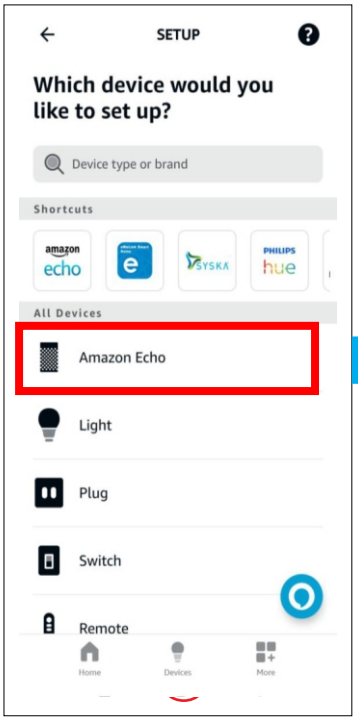

- This is home screen that is showing various features. There are three options at bottom side: Home, Devices and More. Click on 'Devices'.

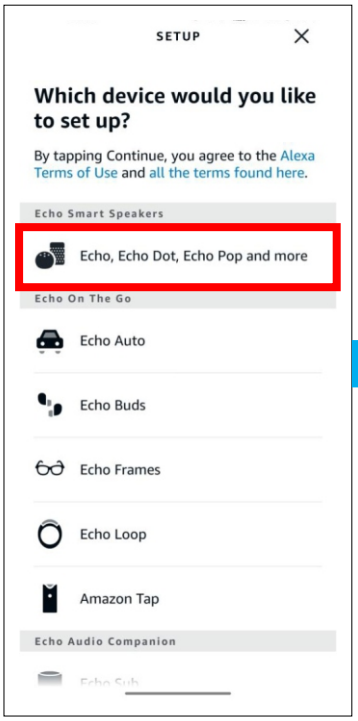

- Tap on the "+" icon in the top right corner to add a new device.
  To set up a new device with Alexa, tap on "Add device" on the screen.

ALEXA DEVICE SETUP

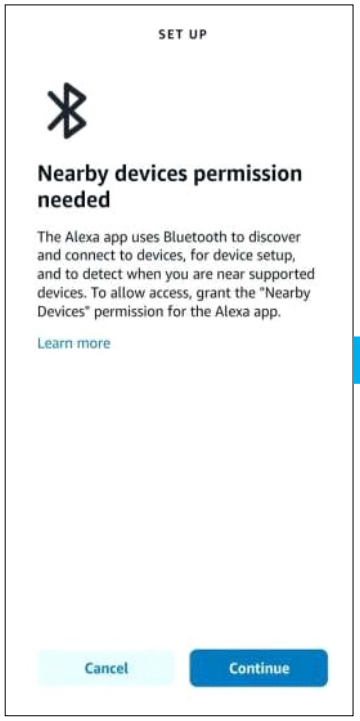

- Select "Amazon Echo" from the list of devices displayed on the screen to proceed with its setup.

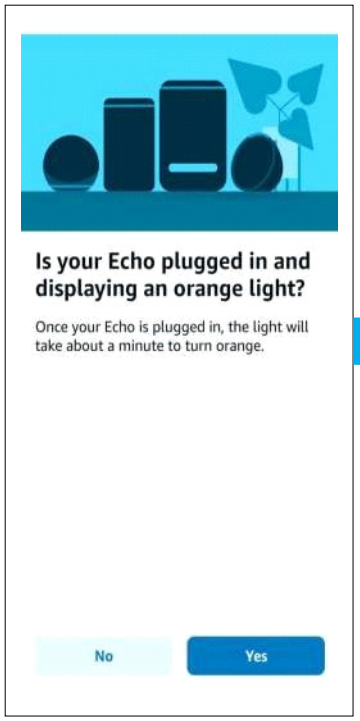

- Choose "Echo, Echo Dot, Echo Pop, and more" from the list of Echo smart speakers displayed on the screen to continue with the setup process

ALEXA DEVICE SETUP

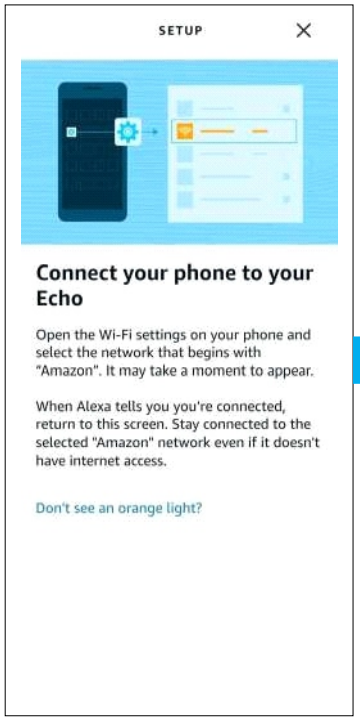

- The Alexa app utilizes Bluetooth to discover and connect to devices, facilitating device setup.

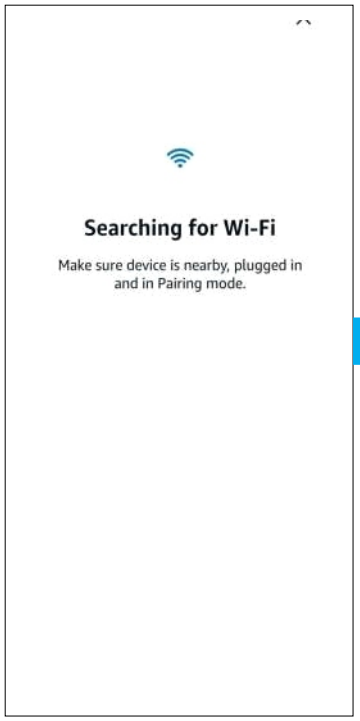

- Confirm whether your Echo device is plugged in and displaying an orange light by selecting "Yes" or "No" accordingly on the screen.

ALEXA DEVICE SETUP

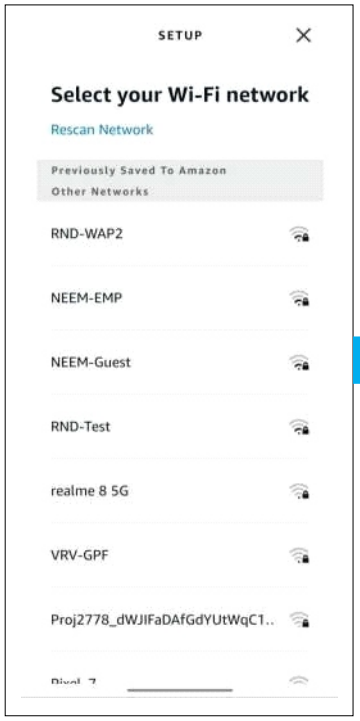

- To connect your phone to the Echo device, open the Wi-Fi settings on your phone and select the network that begins with "Amazon".

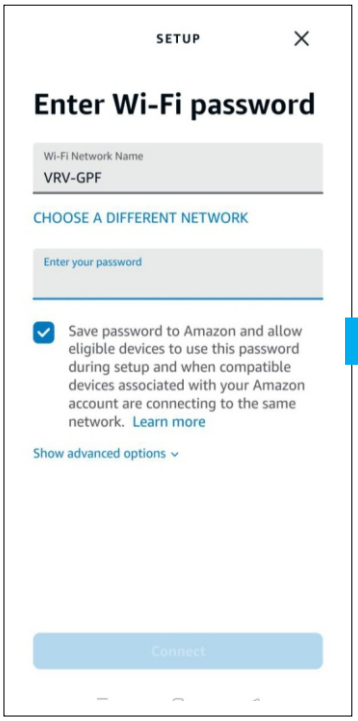

- After successfully connecting your phone to the network starting with "Amazon," return to the Alexa app, which should be running in the background. You will be directed to the "Searching your Wi-Fi" screen.

ALEXA DEVICE SETUP

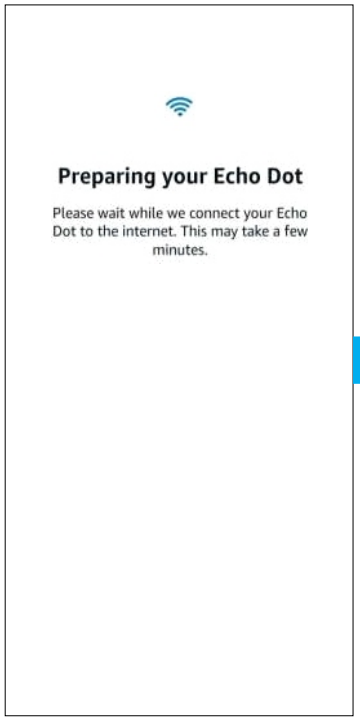

- In this screen, select your home or office Wi-Fi network from the list provided. This will connect your device to your preferred Wi-Fi network.

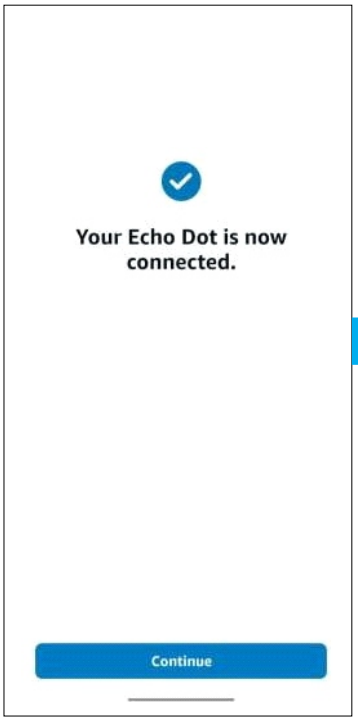

- After choosing a Wi-Fi Network; for example "VRV-GPF", then you'll need to enter the Wi -Fi password.

ALEXA DEVICE SETUP

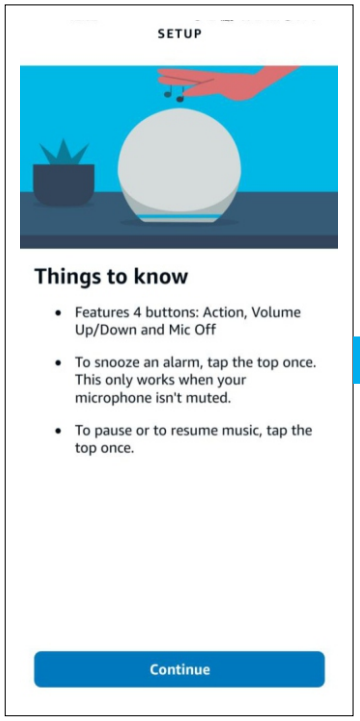

- In the subsequent screen, you will see the " Now preparing your Echo Dot" Message. This process may take a few minutes to complete.

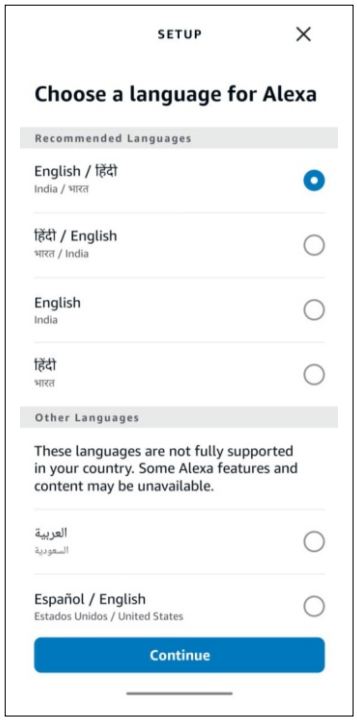

- This screen shows that your echo dot is connected.

ALEXA DEVICE SETUP

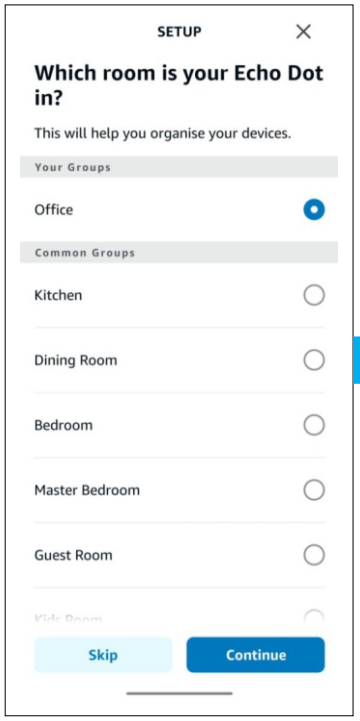

- Here are the functions of the four buttons: Action, Volume Up/Down, and Mic Off. To snooze an alarm, tap the top once. Please note that this only works when your microphone isn't muted. For pausing or resuming music, tap the top once.

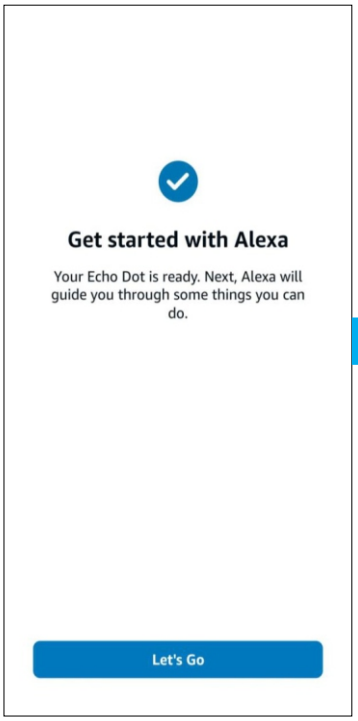

- Select a language for Alexa, and please be aware that some languages mentioned on the screen may not be fully supported.

ALEXA DEVICE SETUP

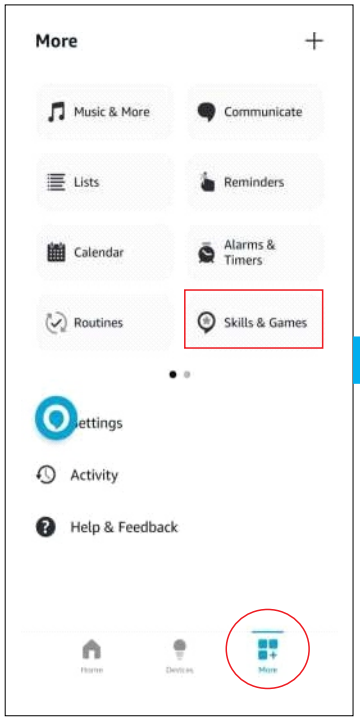

- Indicate the room where your Echo Dot is located. This information is valuable for organizing and managing your device effectively.

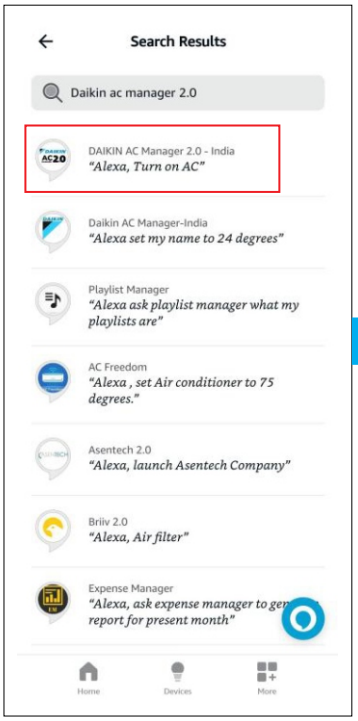

- Once you have successfully connected Alexa to your Wi-Fi, you can now proceed to establish a connection between Alexa and your air conditioner.

ALEXA – AC CONNECTIVITY (How to connect Alexa Speaker with AC Unit)

- User need to follow below steps to connect Alexa Smart Speaker with Alexa Mobile App.

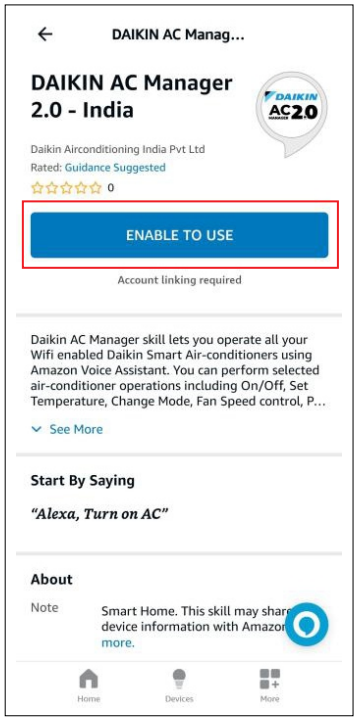

- To connect your AC unit, Please click on 'More' as shown in the screen. And then click on Skills & Games.

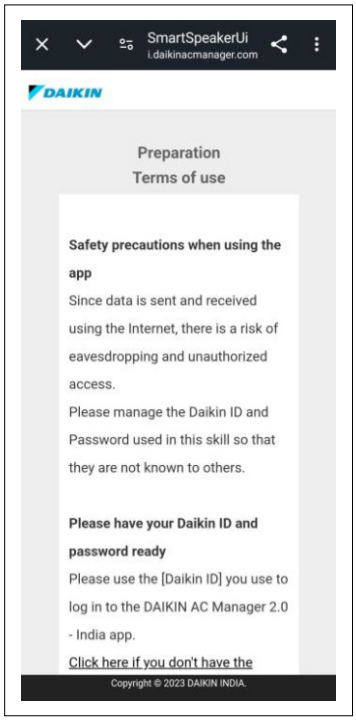

- To add Daikin AC Manager 2.0 Skills, search for “Daikin AC Manager 2.0” and tap on it.
